Spirit Week 2006

- "It was good still but more people should of danced" ***Fatima Skerrin***
- "Did you see Omar!"***Tanisha Evans***

CRAZY HAIR, MESSY EATERS and TALENTED DANCERS take over the stage at Westview's Spirit Week 2006. The most exciting events were the dance off and the jello eating contest where students had to eat a pan full of jello in a certain amount of minutes. Both the crowd and contestants were excited to see the winner of the messy event. The dance off was amusing because even Westview's very own mascot got down and dirty when the music was playing.

Sandy (right, center), grade 12, has happily volunteered to dye her hair for crazy hair day. A number of individuals thought it would be a funny idea to change the color of their hair for a day to look wacky and creative. Some didn't even bother to comb their hair that morning, It was wild!! But Sandy smiles proudly to show her true colors (lol). Omar Chisholm (bottom right) & Kwabena Adom, grade 12 dance for the number one title of best dancer until Corloney and cousin Lashawna decide to battle them out.

Battle of the mouths, to see who can consume the most jello in only a certain amount of time, all grades 9-12 in the cafetorium tried out for this event and it wasn't such a pretty sight. But Westview had their fellow students' backs and cheered for them anyway.

Backwards Day: Now backwards day was cool: everyone had their own unique way of expressing the concept. It could have been the way you talked, walked, looked or sat. But Vanessa Priddie and sister Kinesha strut their stuff as the backwards sisters for the day, even the color/hair coordinated to show school spirit.

Spirit week 2006 took place Nov. 27 - Dec. 2 and students from all grades got a chance to get together and have fun. The event changed every day and so did the theme. Westview had fun those couple of days and we really enjoyed ourselves.

DANCE

"You thought it would be flop, but it was live"

Most people agree that the first dance of this year was a true success story. Over 200 people attended, and people were talking about it for days afterward. Another dance is planned for the spring. Congratulations to Laksh Vig and the rest of the Student Council for organizing this event.

Performing Arts Assembly

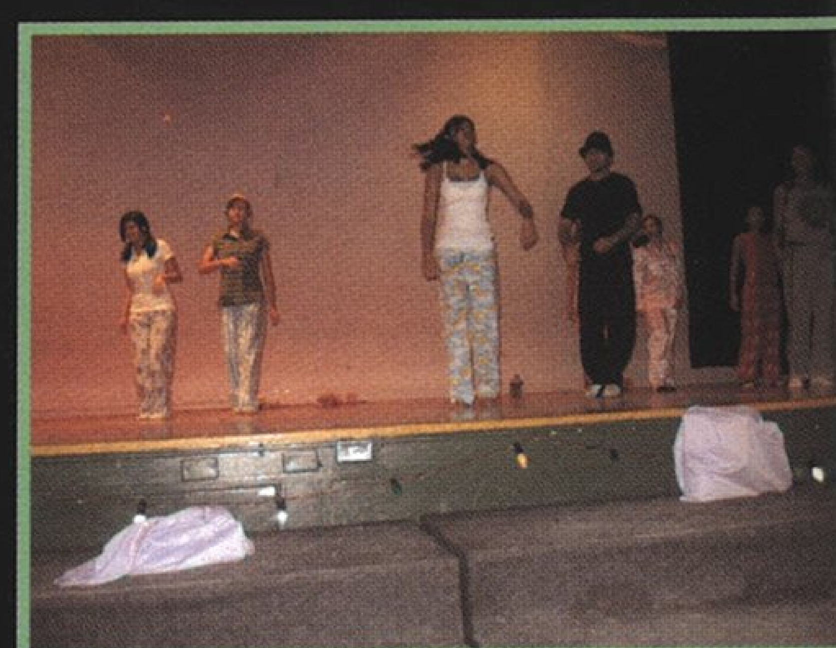

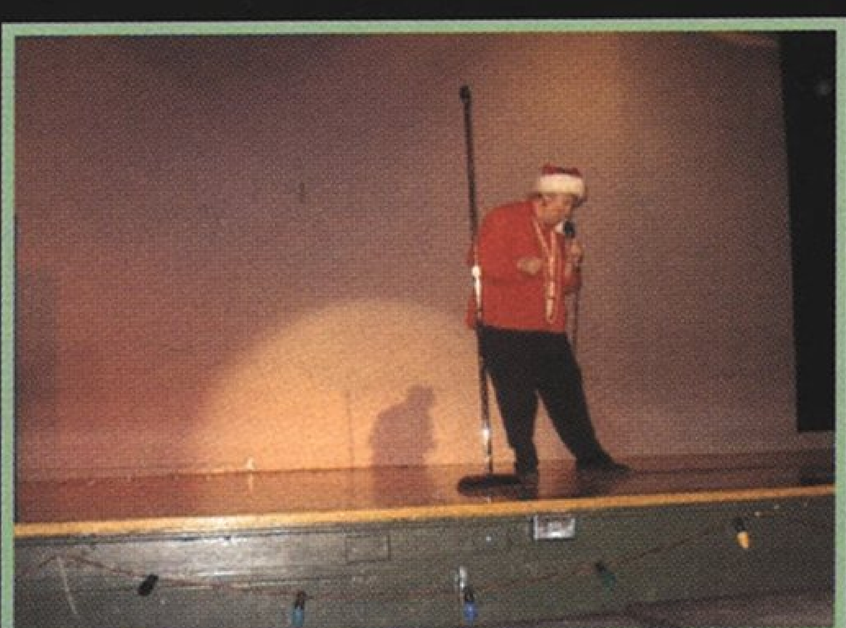

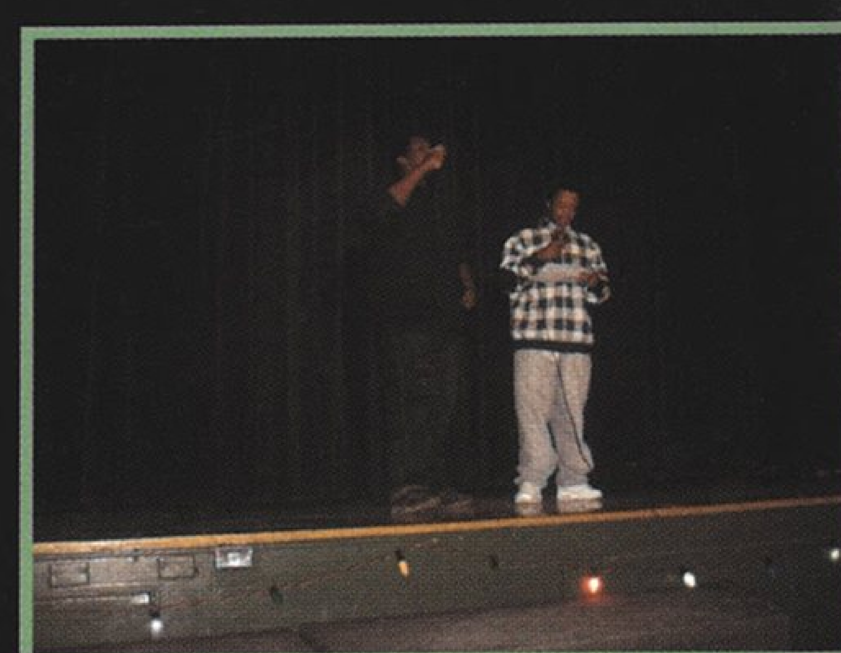

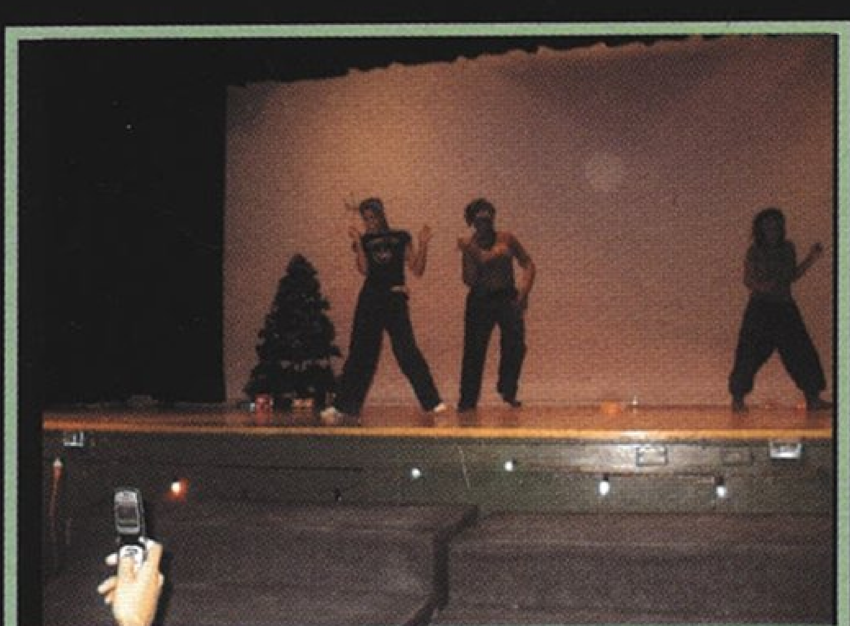

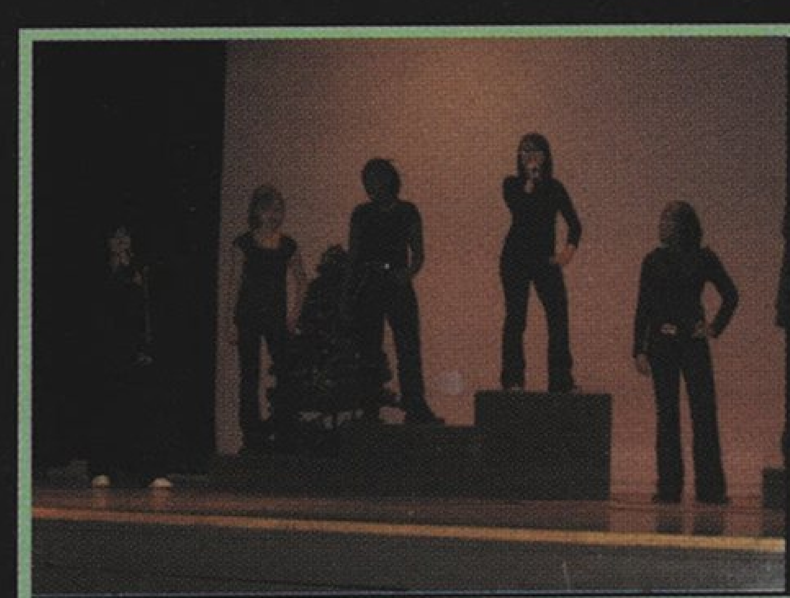

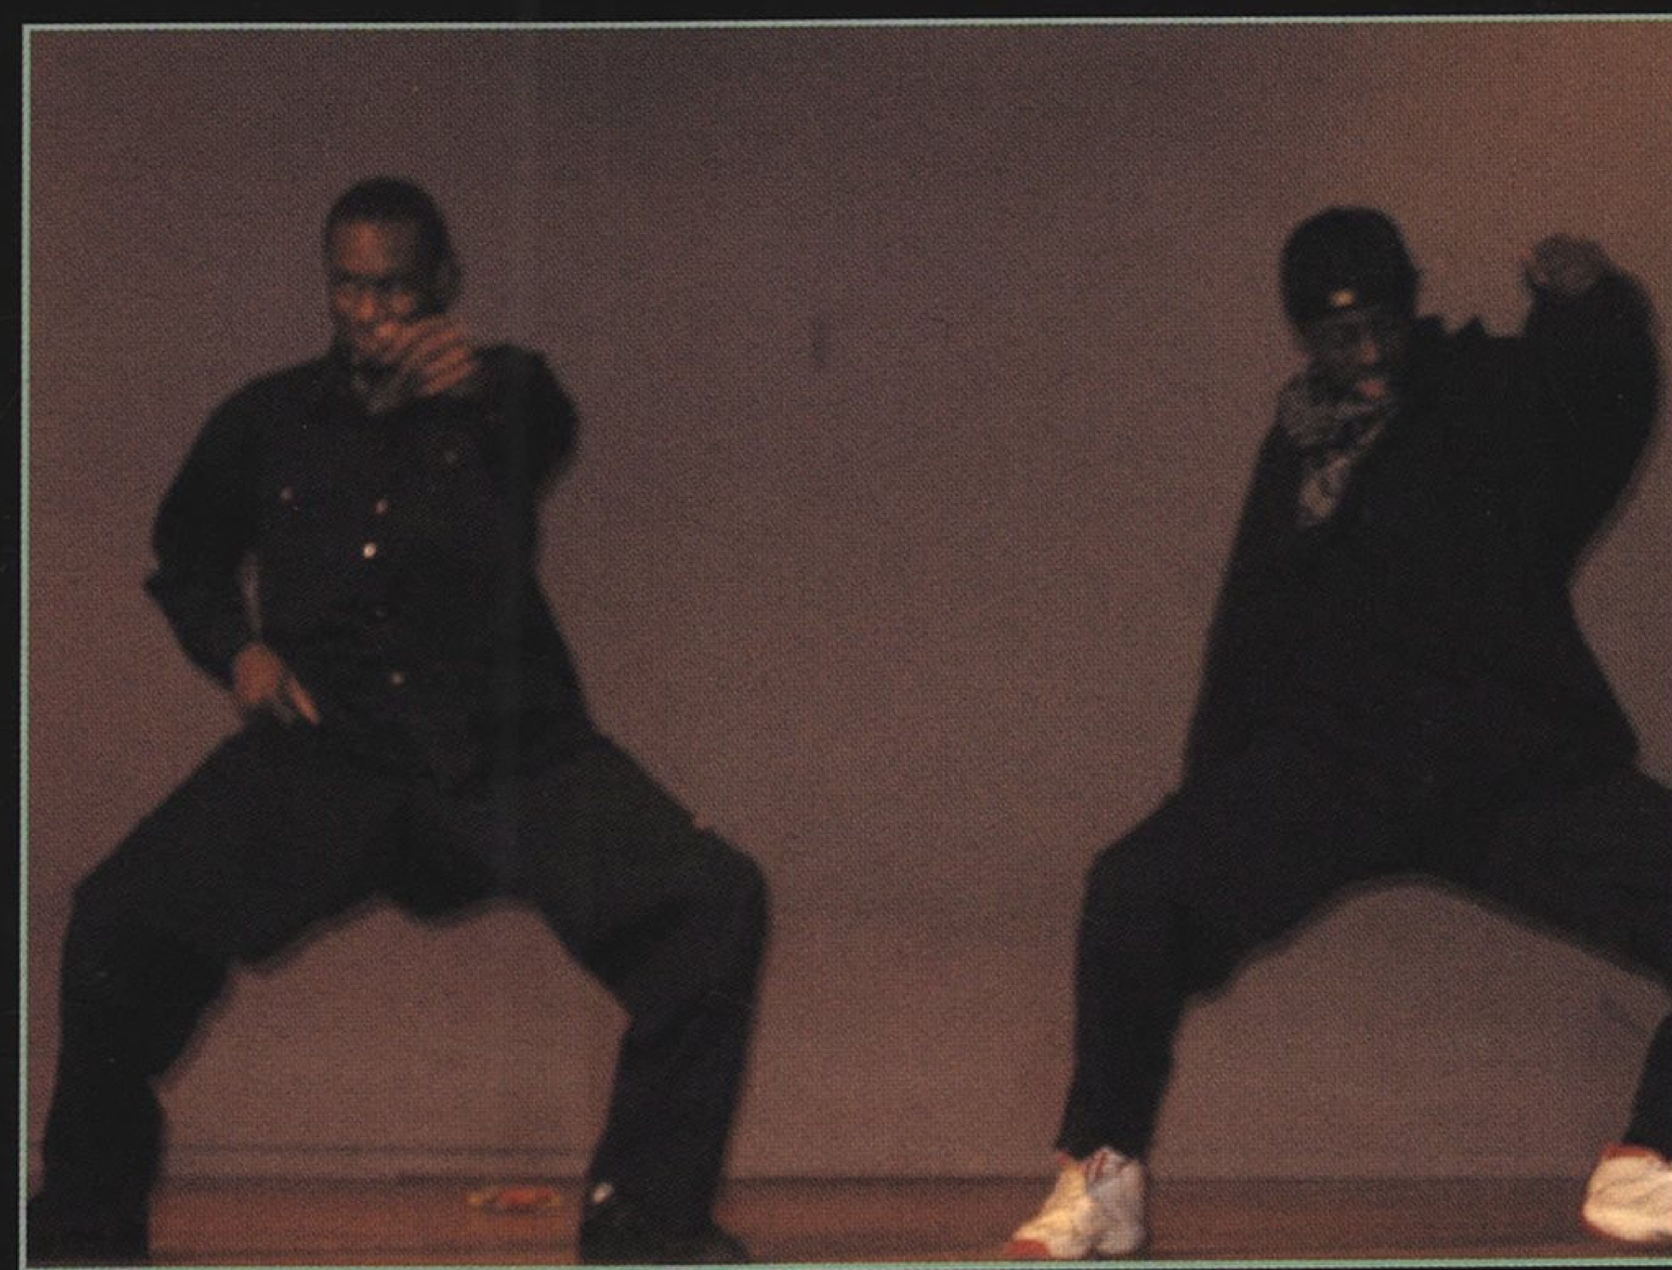

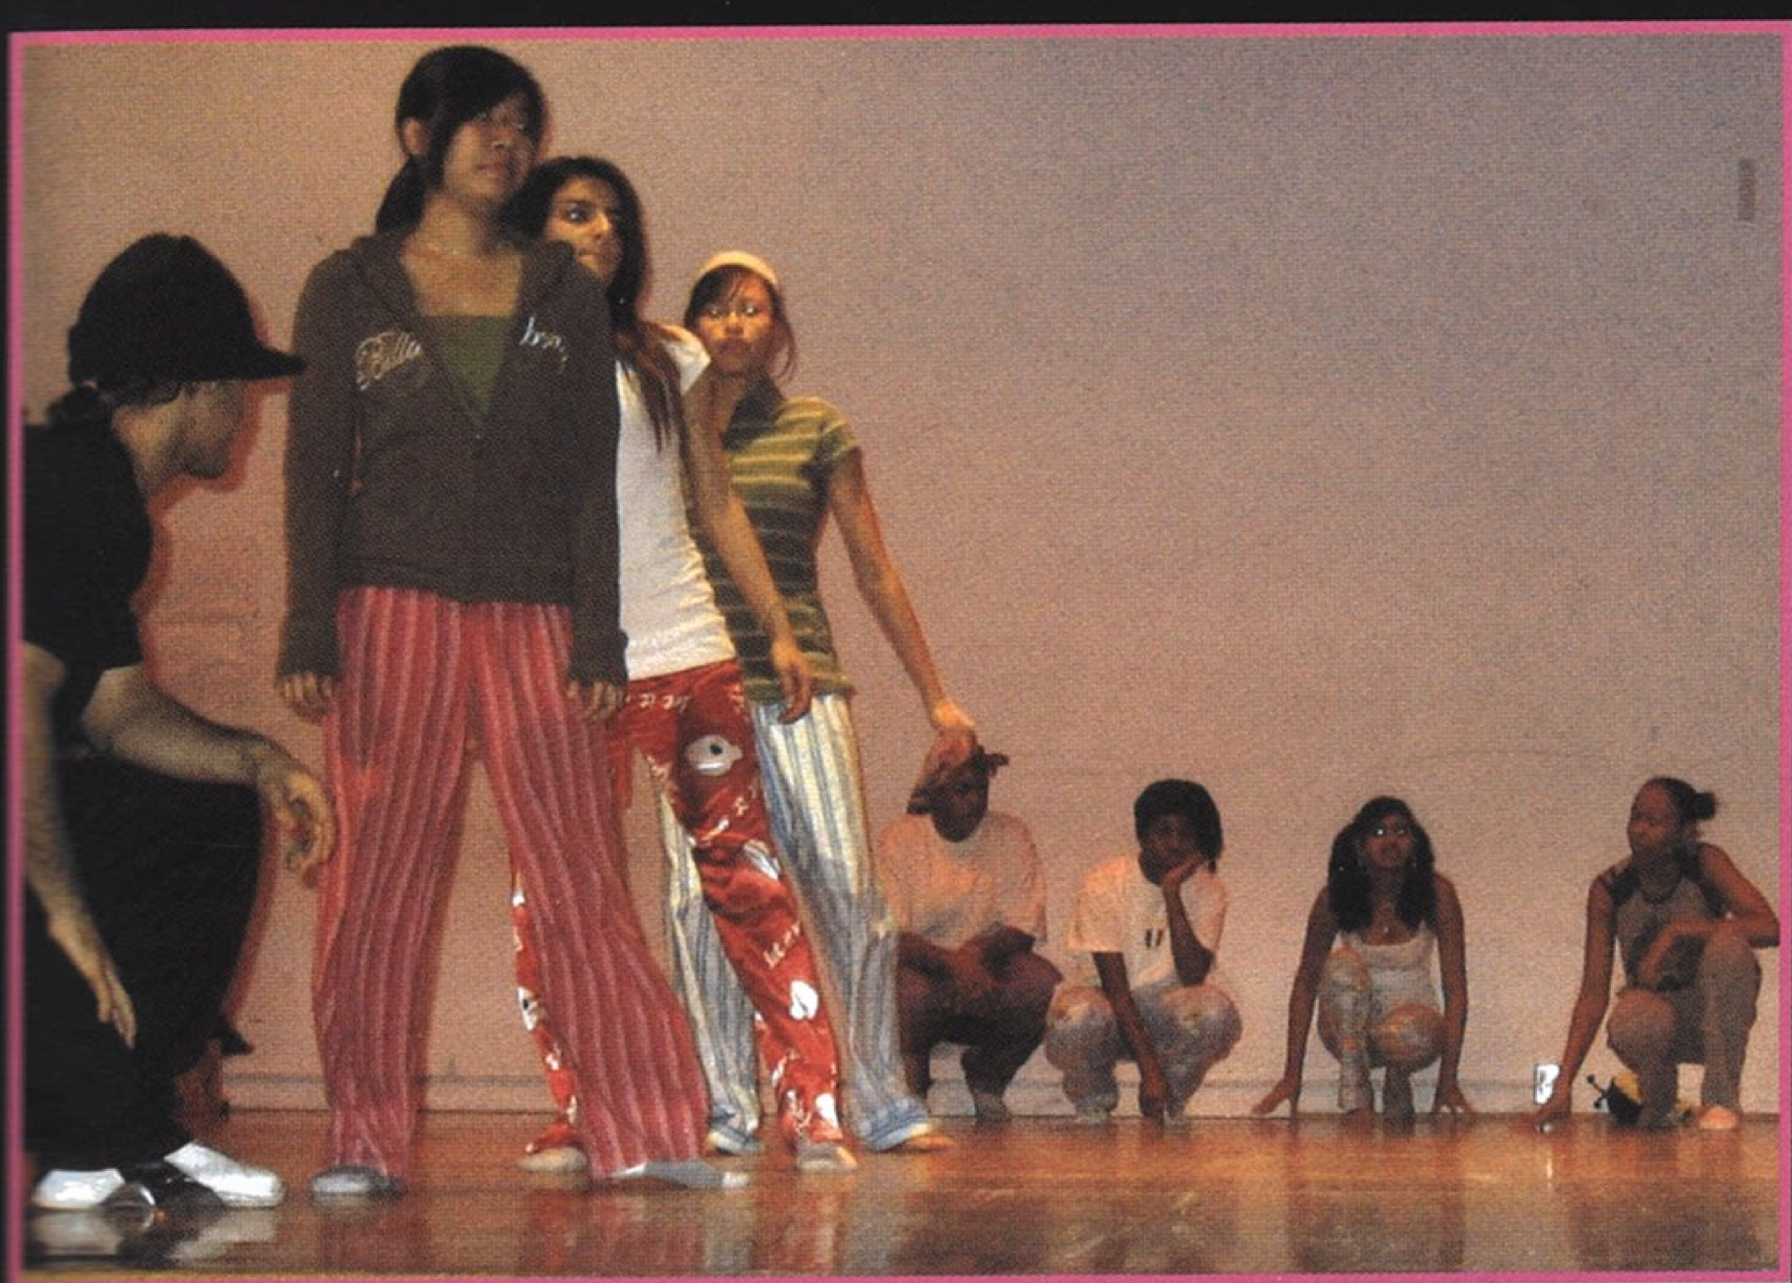

On Dec 21st and 22nd, Westview's Wildcats performers got together to show off their talented work to the student body through music, dance, drama, and much, much more.

A Meeting of The Minds

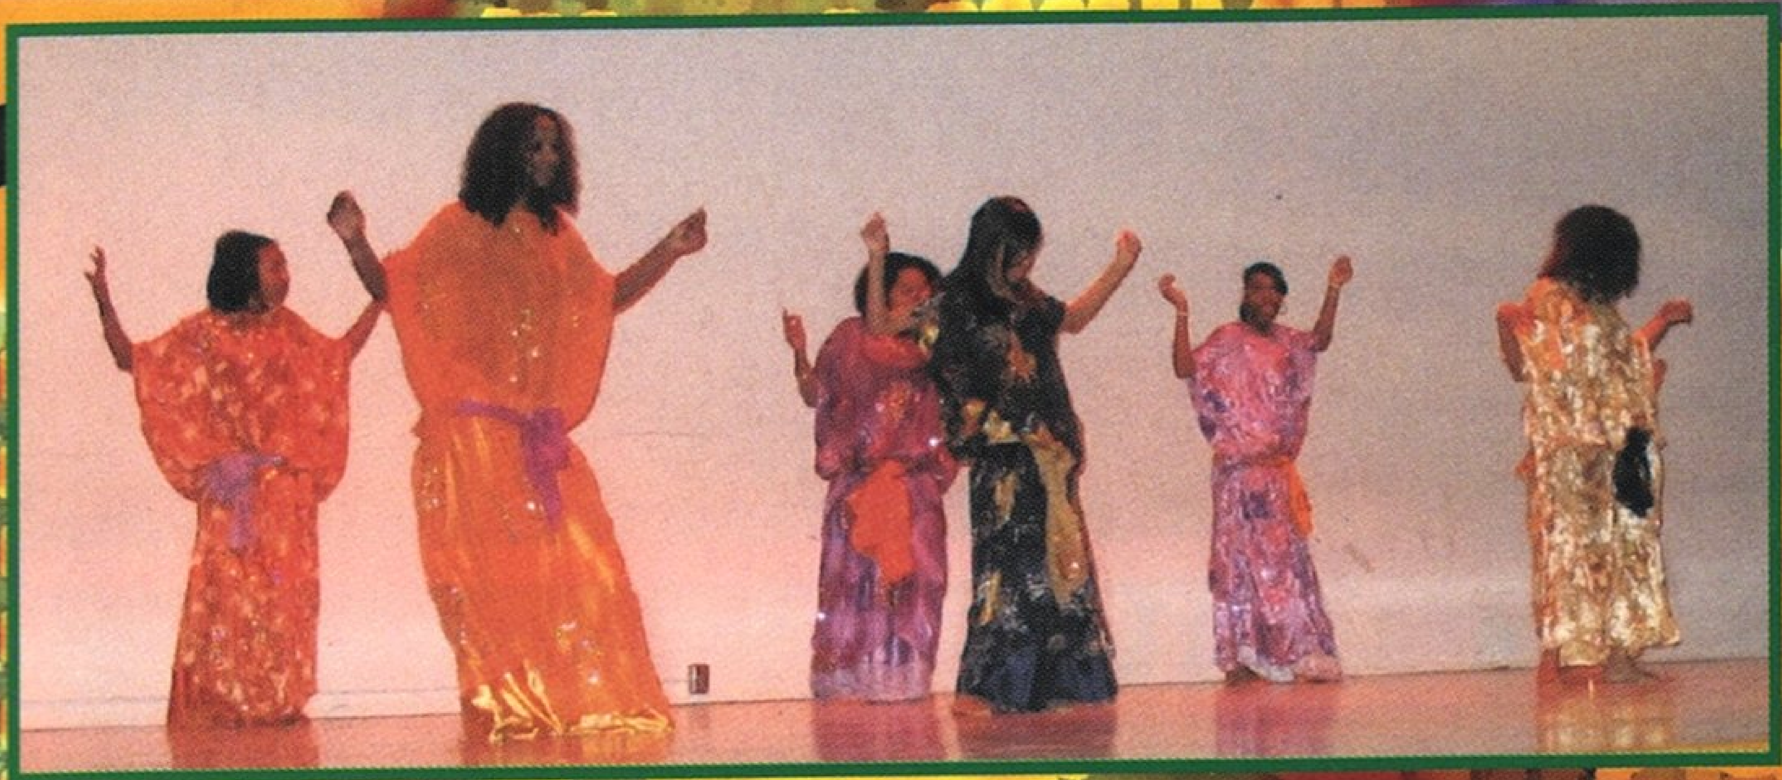

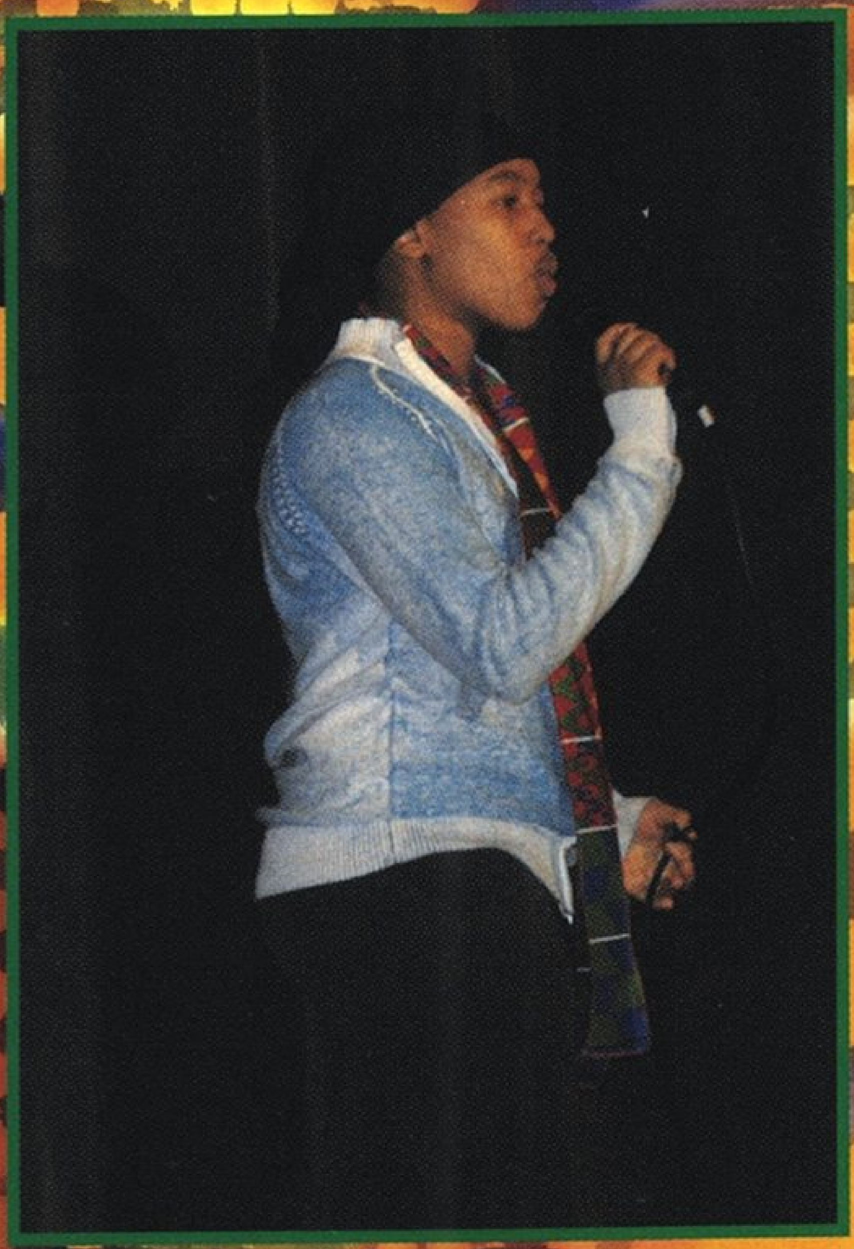

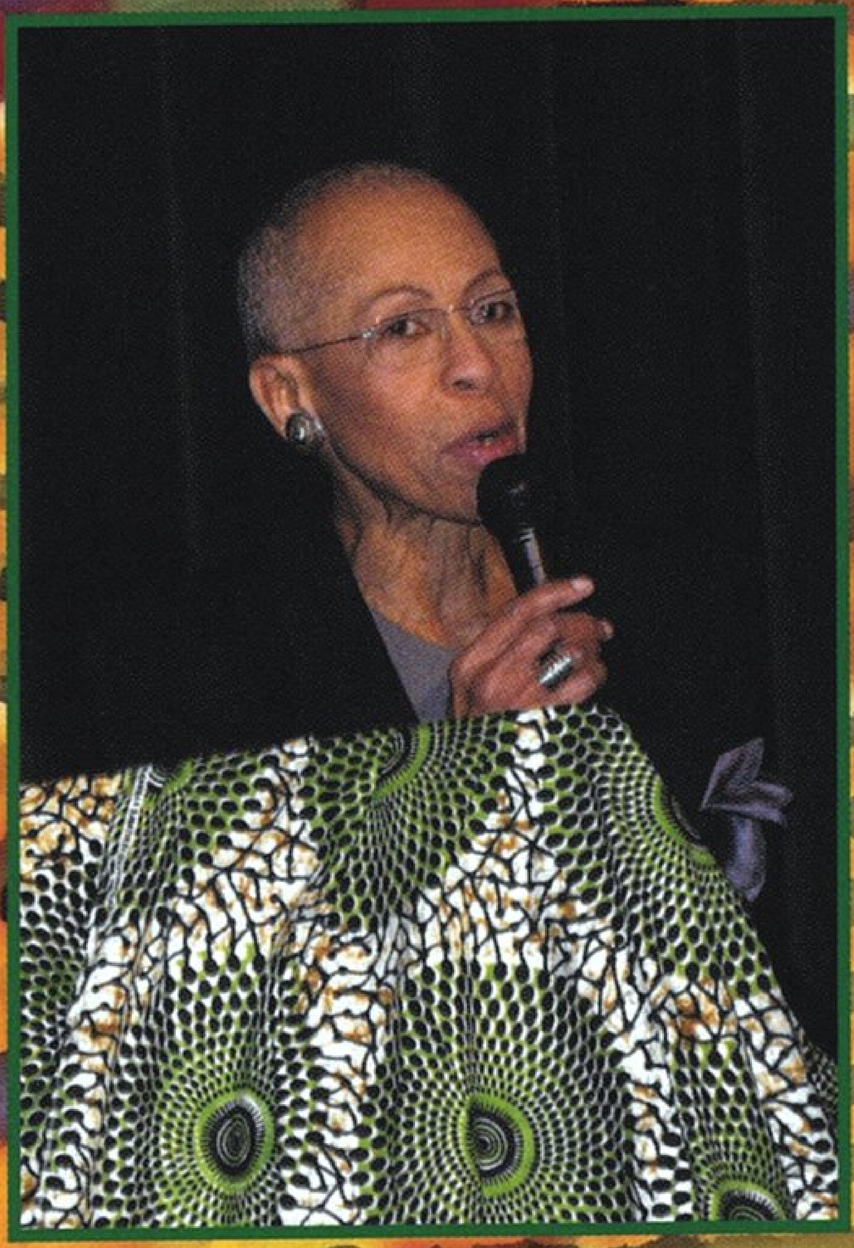

African Heritage Month 2007

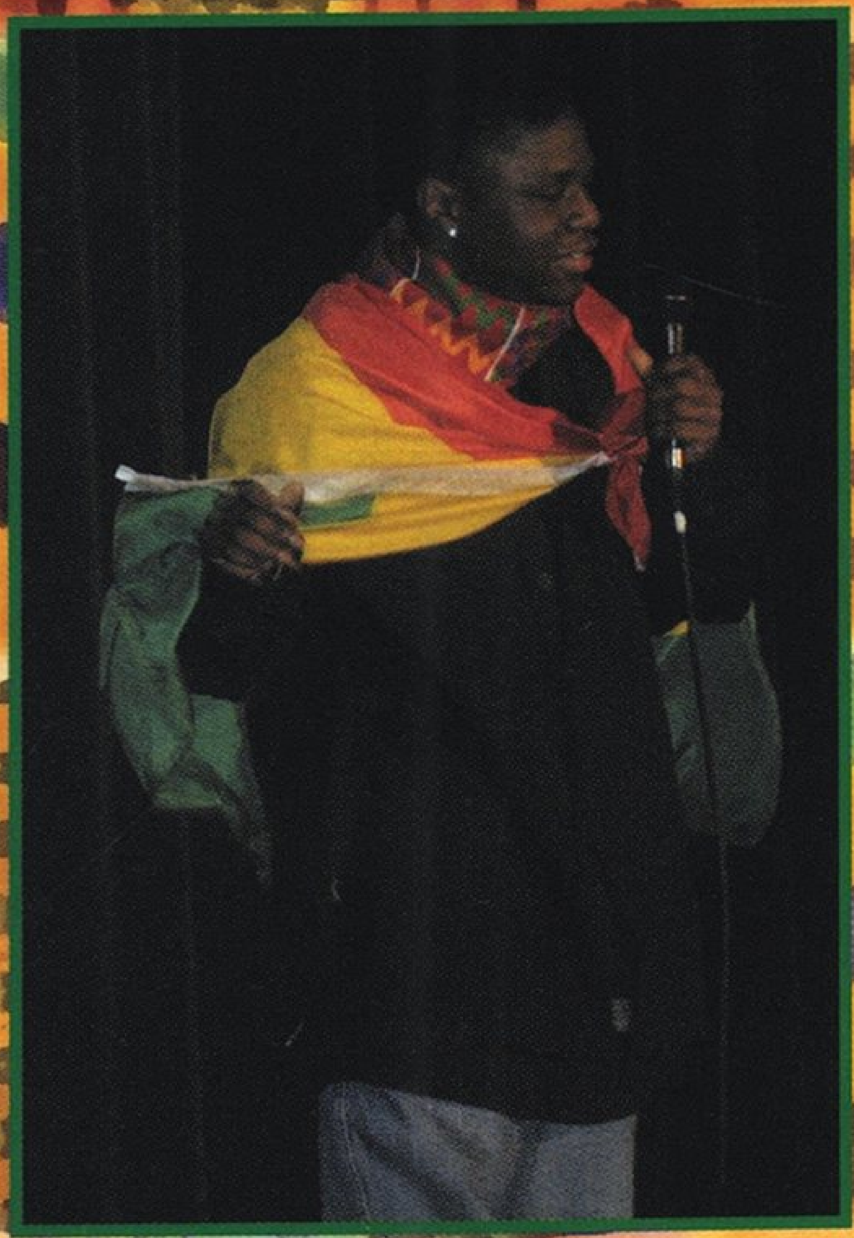

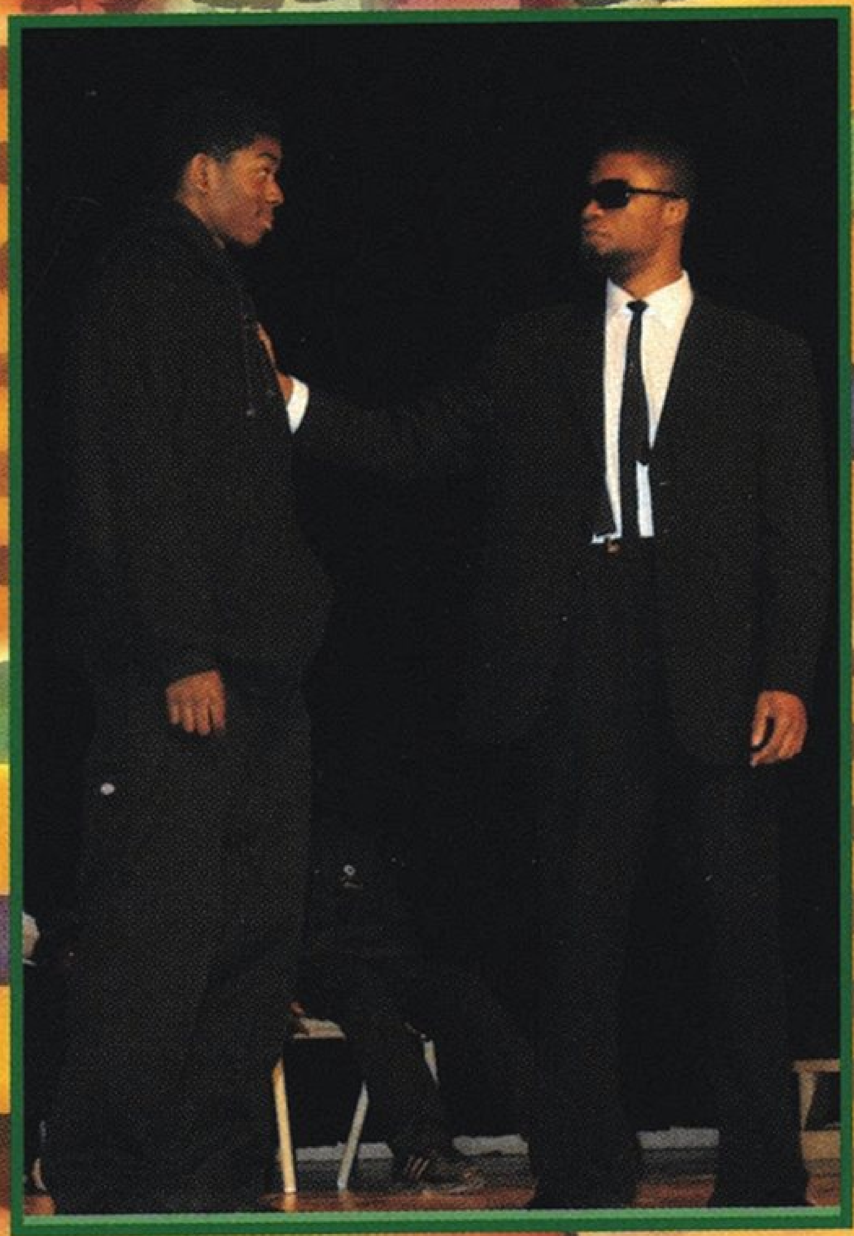

On March 6 and 7, students and teachers once again came together to celebrate African heritage in an entertaining and thought-provoking assembly. Other events during the month of February included readings, guest speakers, film screenings, African-Carribean Lunches, and a juried art show on the theme of "The Meeting of the Minds."

The African drumming group played us into the cafetorium, and a choir of teachers and students presented an upbeat rendition of "Lift Every Voice". This year, we saw a film, dramatic presentations, steel pan, and many styles of dance, from Somalian traditions to calypso to hip-hop.

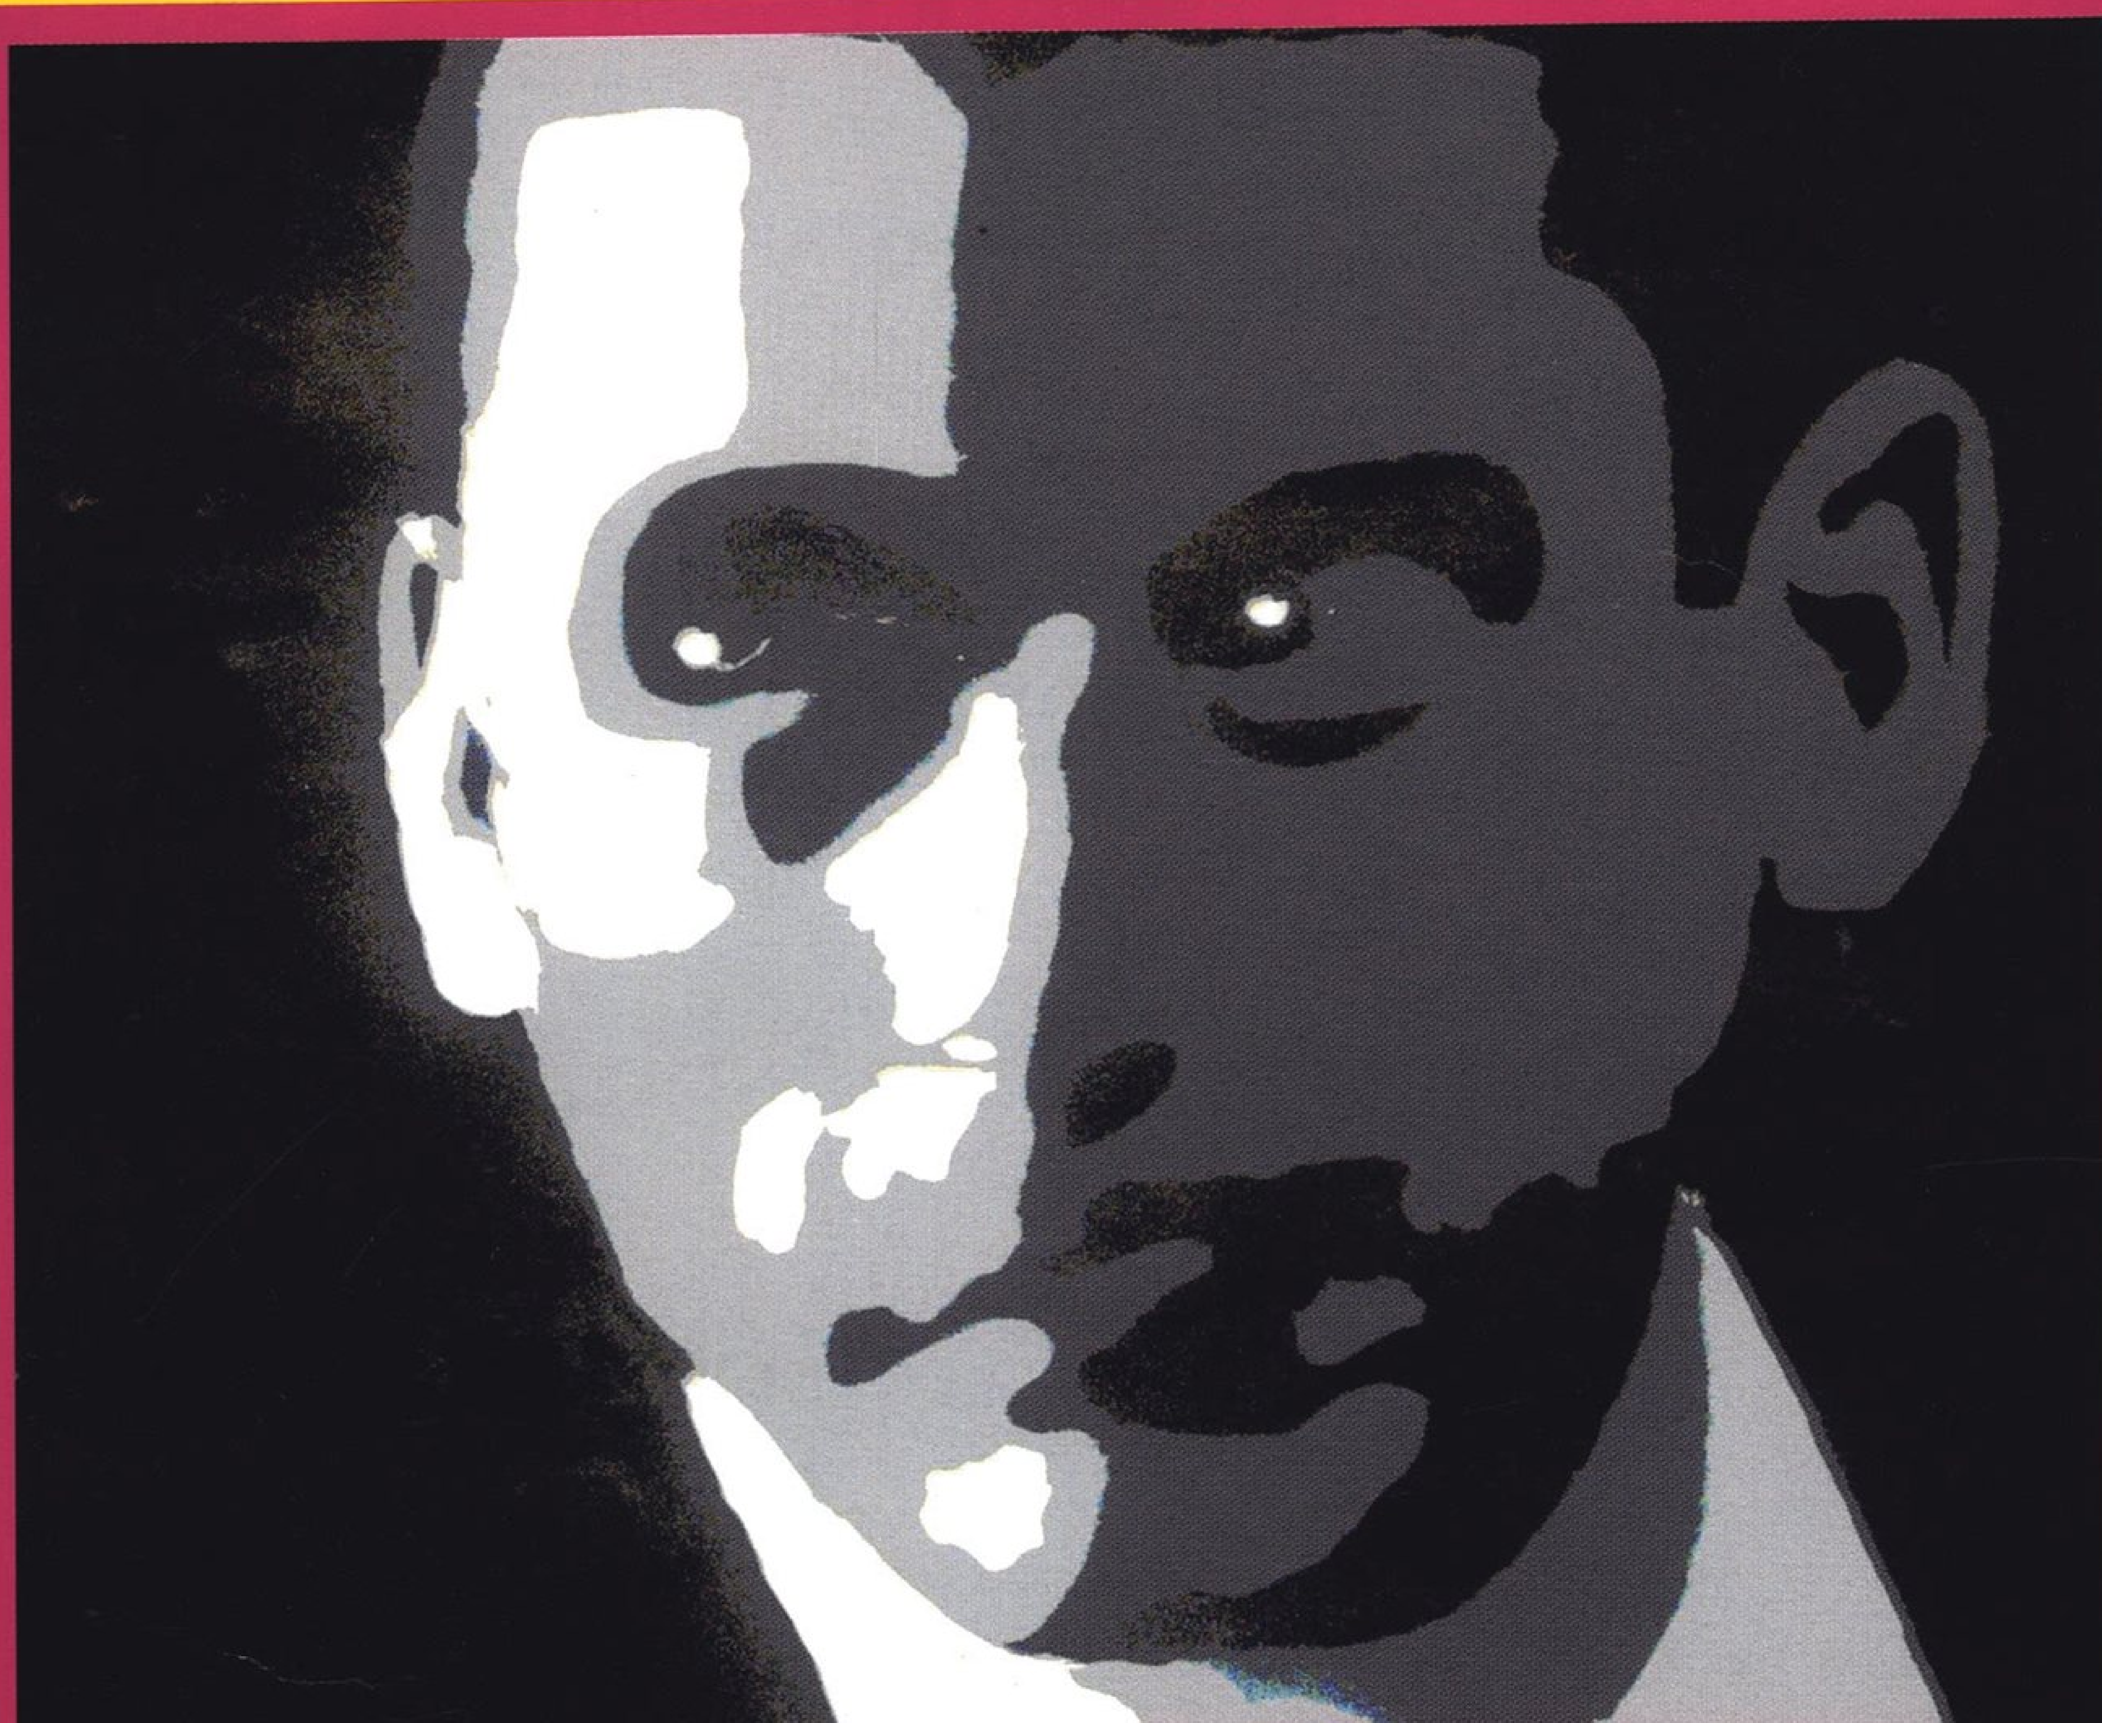

VISUAL ARTS

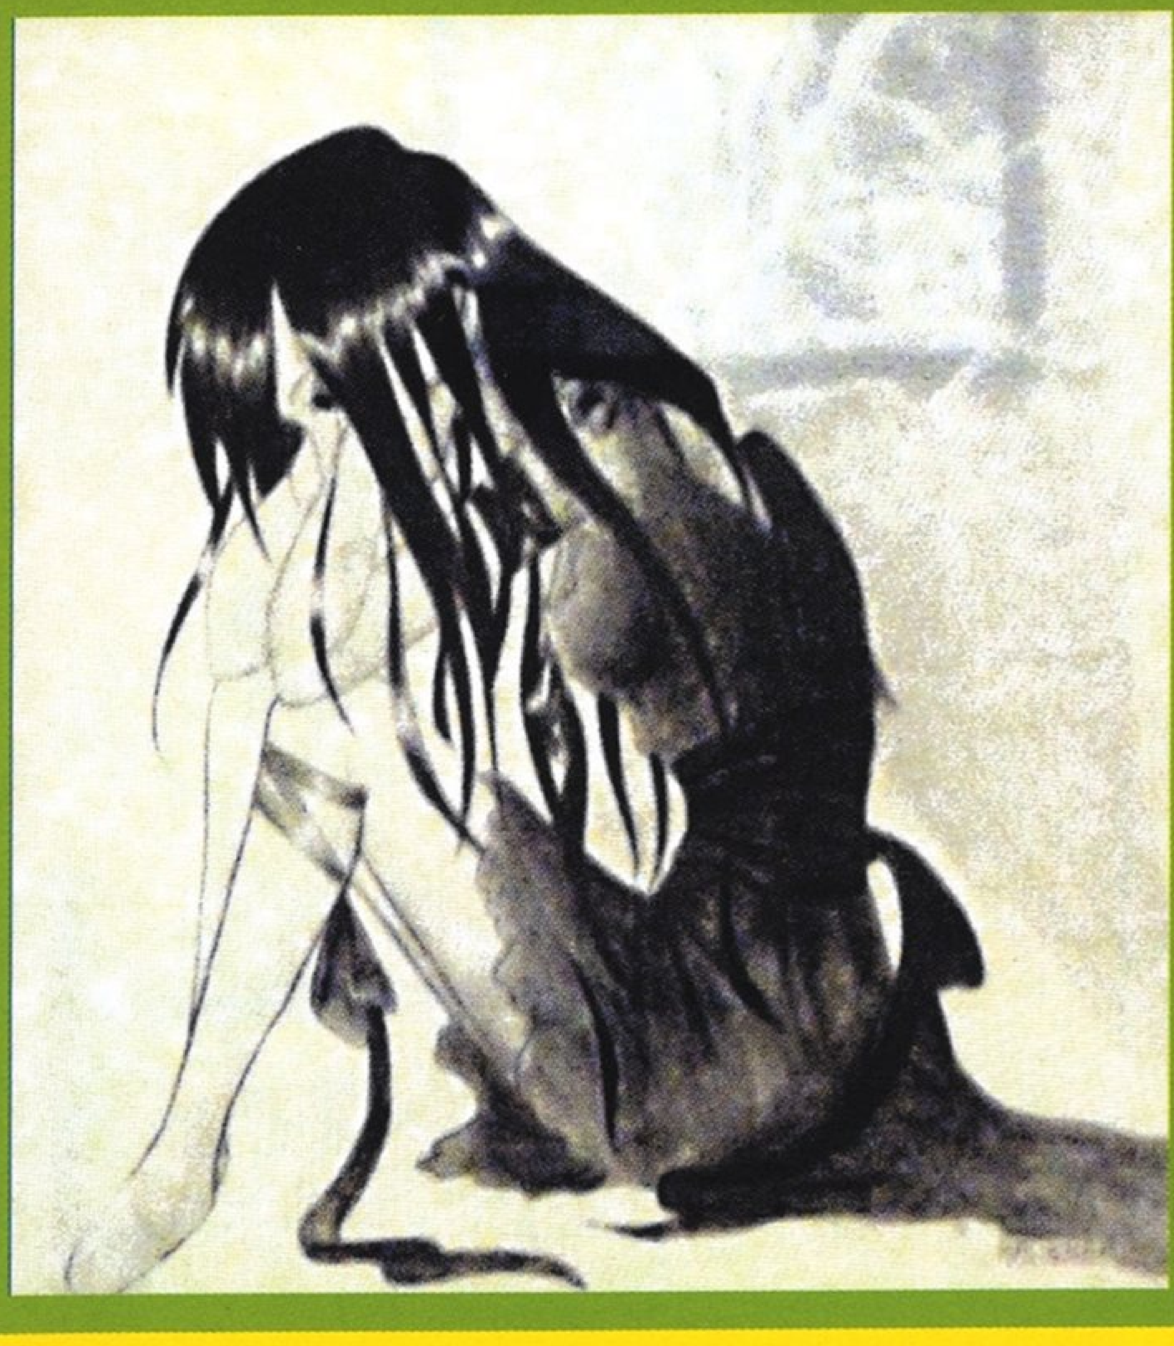

2006-2007 saw several new murals appear on the walls of Westview. There are plans for more to come, and also a Spring Arts showcase throughout the whole school.

Food For Thought

Under the direction of Ms. Koshy and Ms. Fry, seen below, students often make food for fundraisers or special events at the school.

Unless you've been living on another planet, you probably realize that a hot news story of 2006 is the "Obesity Epidemic". Soon, scientists predict, almost one third of the population will be obese!

What's to blame? Many reasons are offered: Supersize portions of cheap fast food, hours spend sitting in front of the computer or the TV, and the fact that you can get food almost anywhere you go!

At Westview, battles are fought over coming back late from lunch, bringing food to your classes, or getting caught going "across the street".

Teachers like Ms. Fry, Ms. Koshy, the Phys.Ed. department, and Ms. Engesser-Chung all have lessons about the importance of a healthy diet, but the message gets across only some of the time. But what are we to do--how can something so bad for you TASTE SO GOOD?!

On The Journey to Success

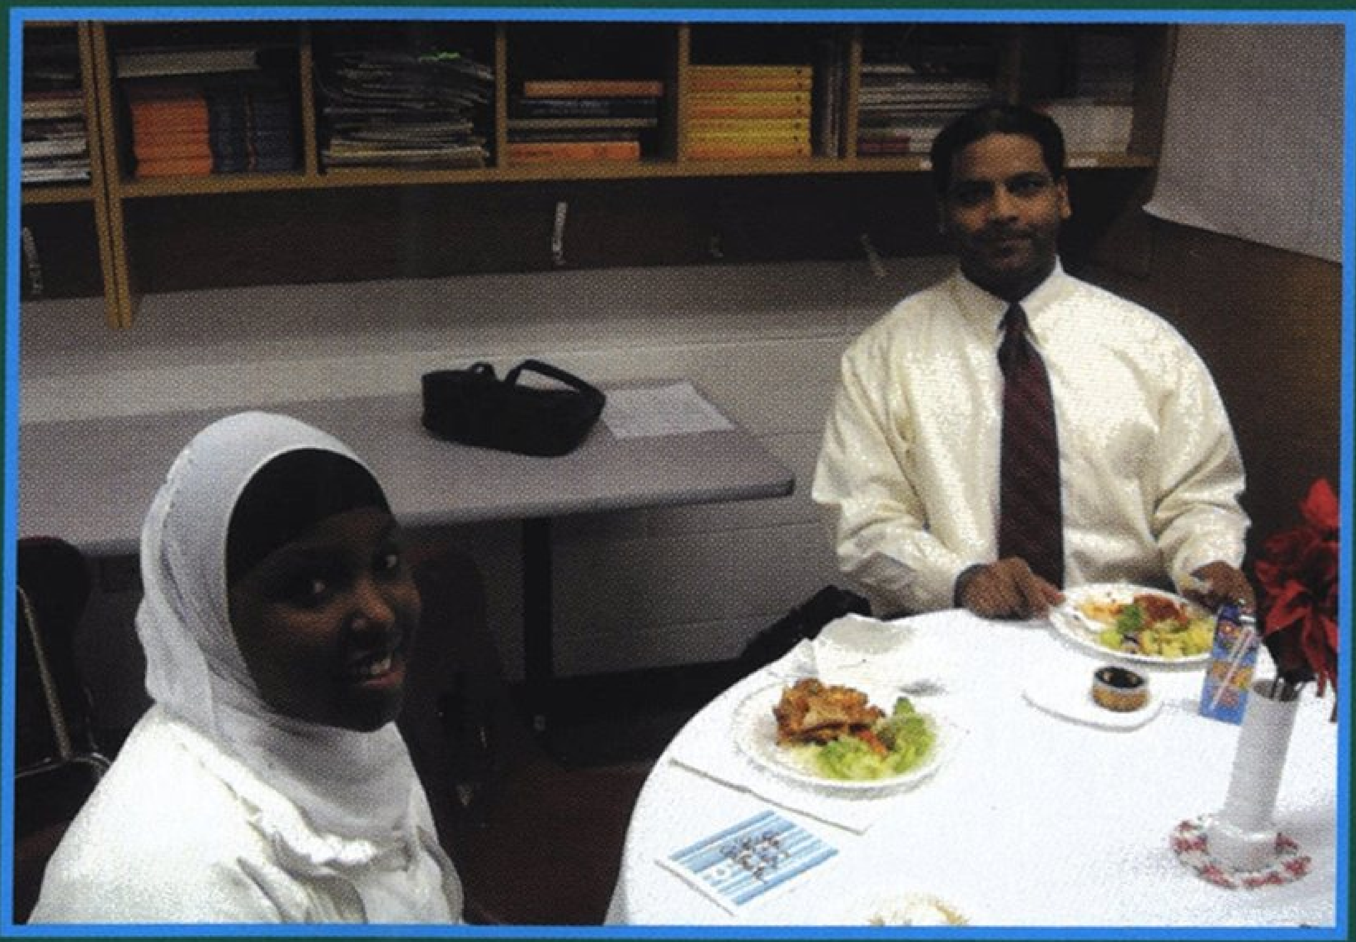

A Journey of a Thousand Miles Begins With a Single Step

On November 22, 2006, we held the first of our two annual "Journey to Success" luncheon. Teachers nominated students whom they felt had demonstrated personal growth leading to academic success. The students and teachers enjoyed a well-deserved luncheon to celebrate. Delicious dessert was provided by Ms. Fry's Hospitality class.

Math and Science a Brain Boooooooggler!

by Linda Nguyen

Math and Science are like vegetables; they're good for you, but no one really likes to eat them! FACT: did you know that there are high numbers of devoted staff willing to help students before and after school in order to ensure that students achieve academic excellence? Well, now you know..."It's funny that not many students are aware that math and science are essential for most post-secondary educations," says Danny Vongsa. At Westview, students are fortunate to have access to the materials required for science laboratories. At some schools, there's a mandatory fee required for every science class you take.

Some say that they take science and math because it is compulsory in order to obtain their OSSD but for Chris Zamora, there's another story: "I took biology because I like the way the human body works!" Chris insists. Danny Vongsa is determined to become an anesthesiologist and therefore is taking physics. Describing Mr. Demesie, his physics teachers, Danny says "He is a good teacher and he motivates us to strive our best and tells us to never settle for mediocrity." Mr. Demesie, like most of the devoted teachers at Westview, offers help to his students after school two days a week to help them succeed!

In today's society, teenagers are inspired by television shows such as *ER*, *Crime Scene Investigation*, *Grey's Anatomy*, etc. Due to the popularity of these shows, many students idolize surgeons, forensic scientists, doctors or even nurses! "I'm inspired by *Grey's Anatomy*," adds Danny Vongsa. But did you know, in order to pursue a career in these fields, there are prerequisites of mathematics, biology, chemistry and sometimes physics. Therefore, if you want these kinds of careers, go take some sciences and math!! "It's a major thing in society, states Samuel Miles.

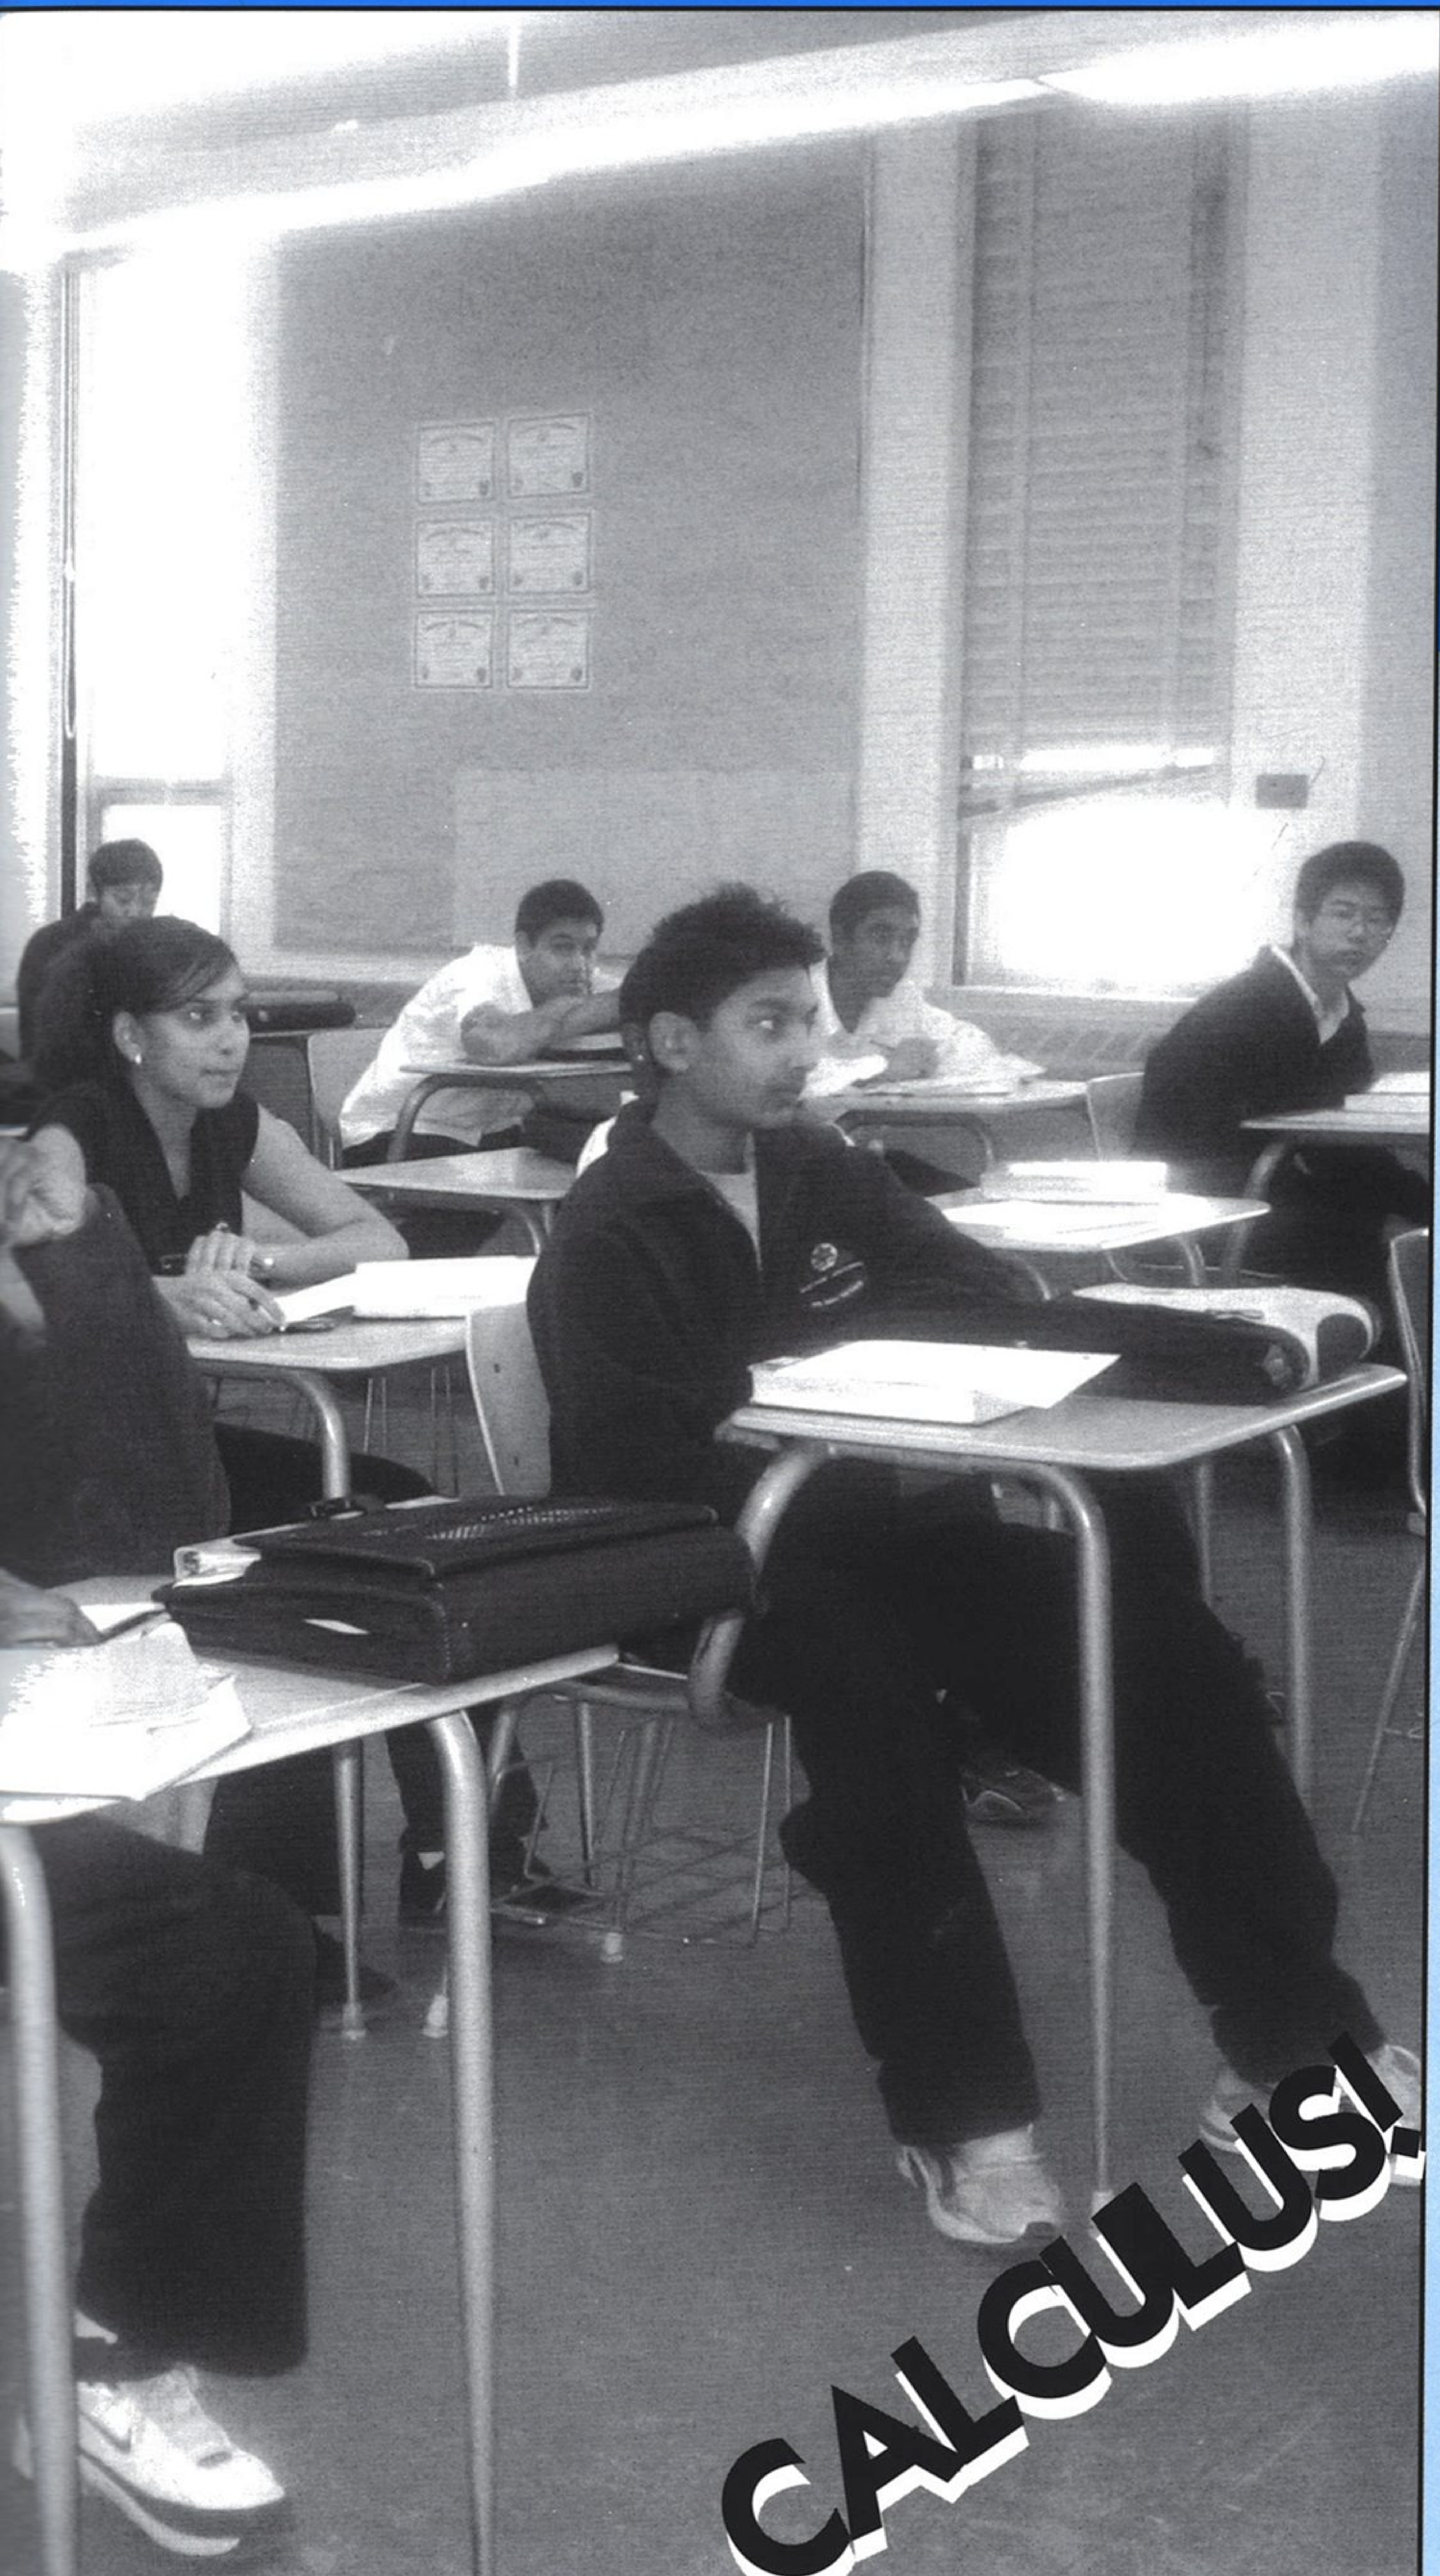

Did you know? FACT: An average high school student taking a math or science course spends approximately two hours per night on their homework! Although it may be very challenging, in the end, the results are very rewarding. "Science helps you learn about how you were brought up and why the world is shaped the way it is," says Tony Nguyen.

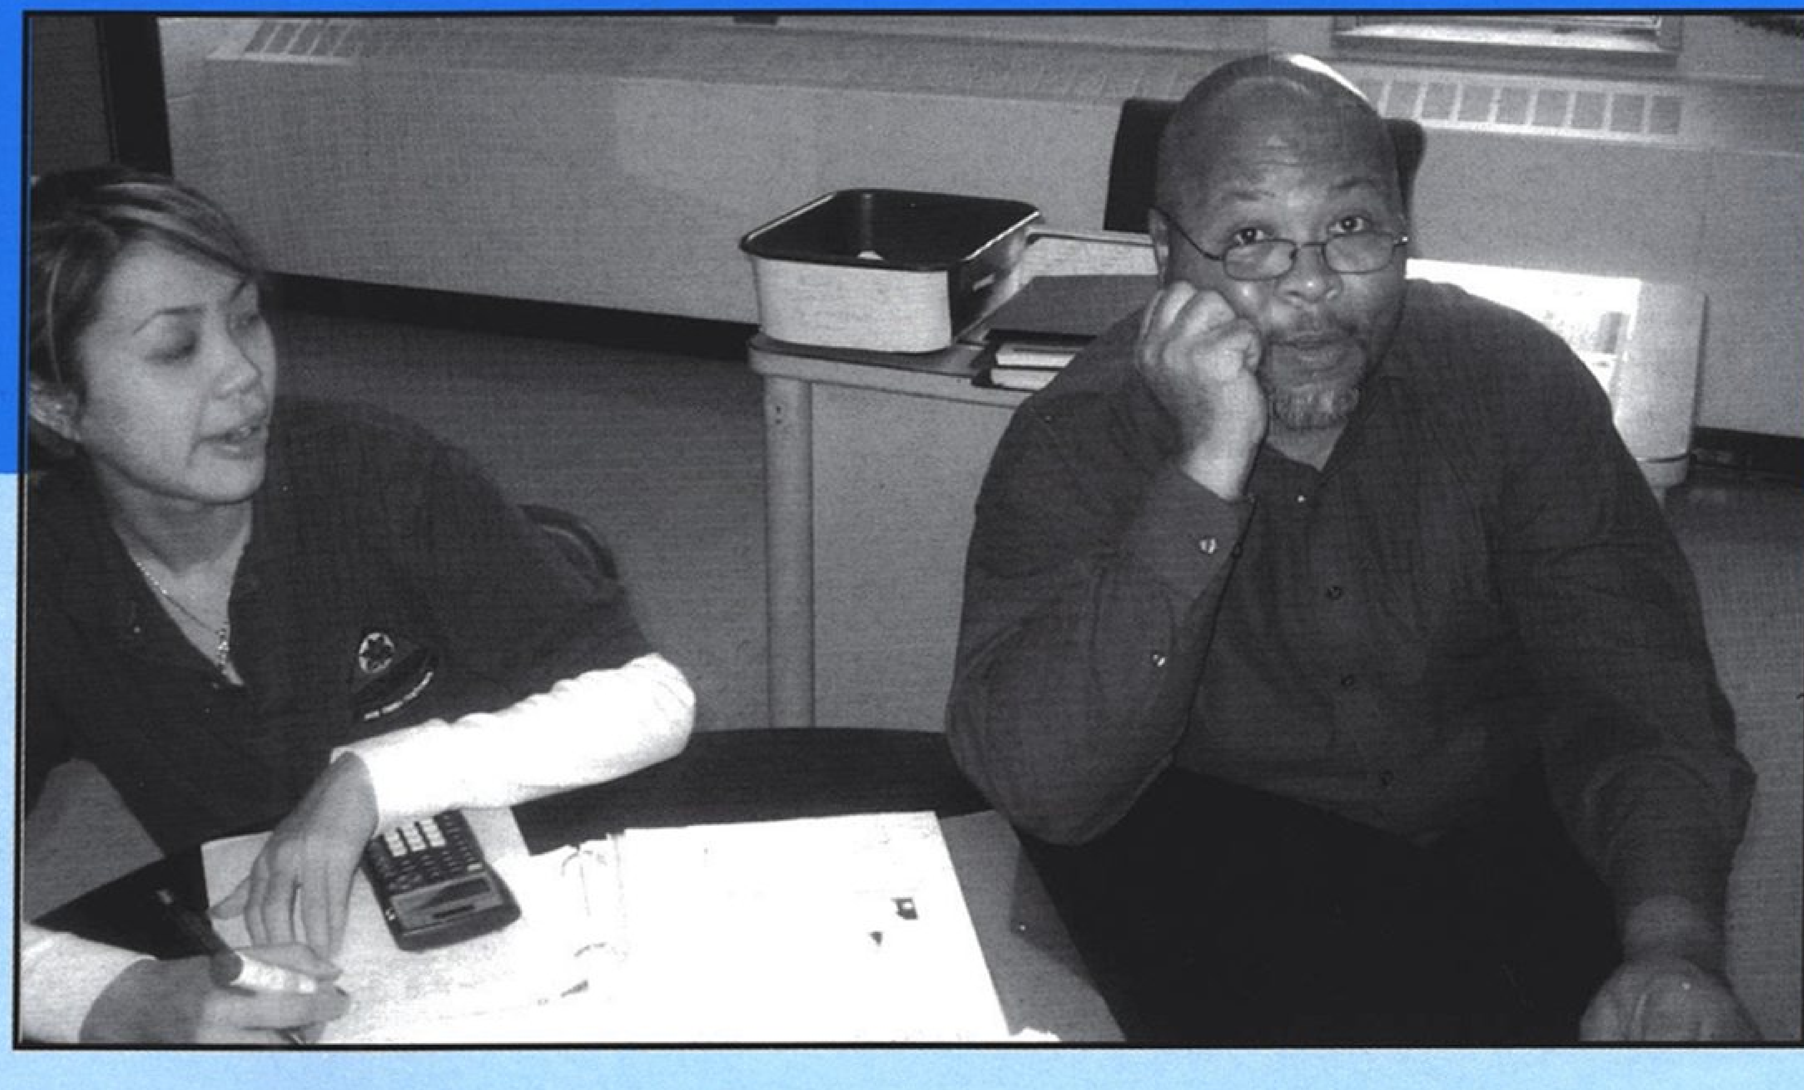

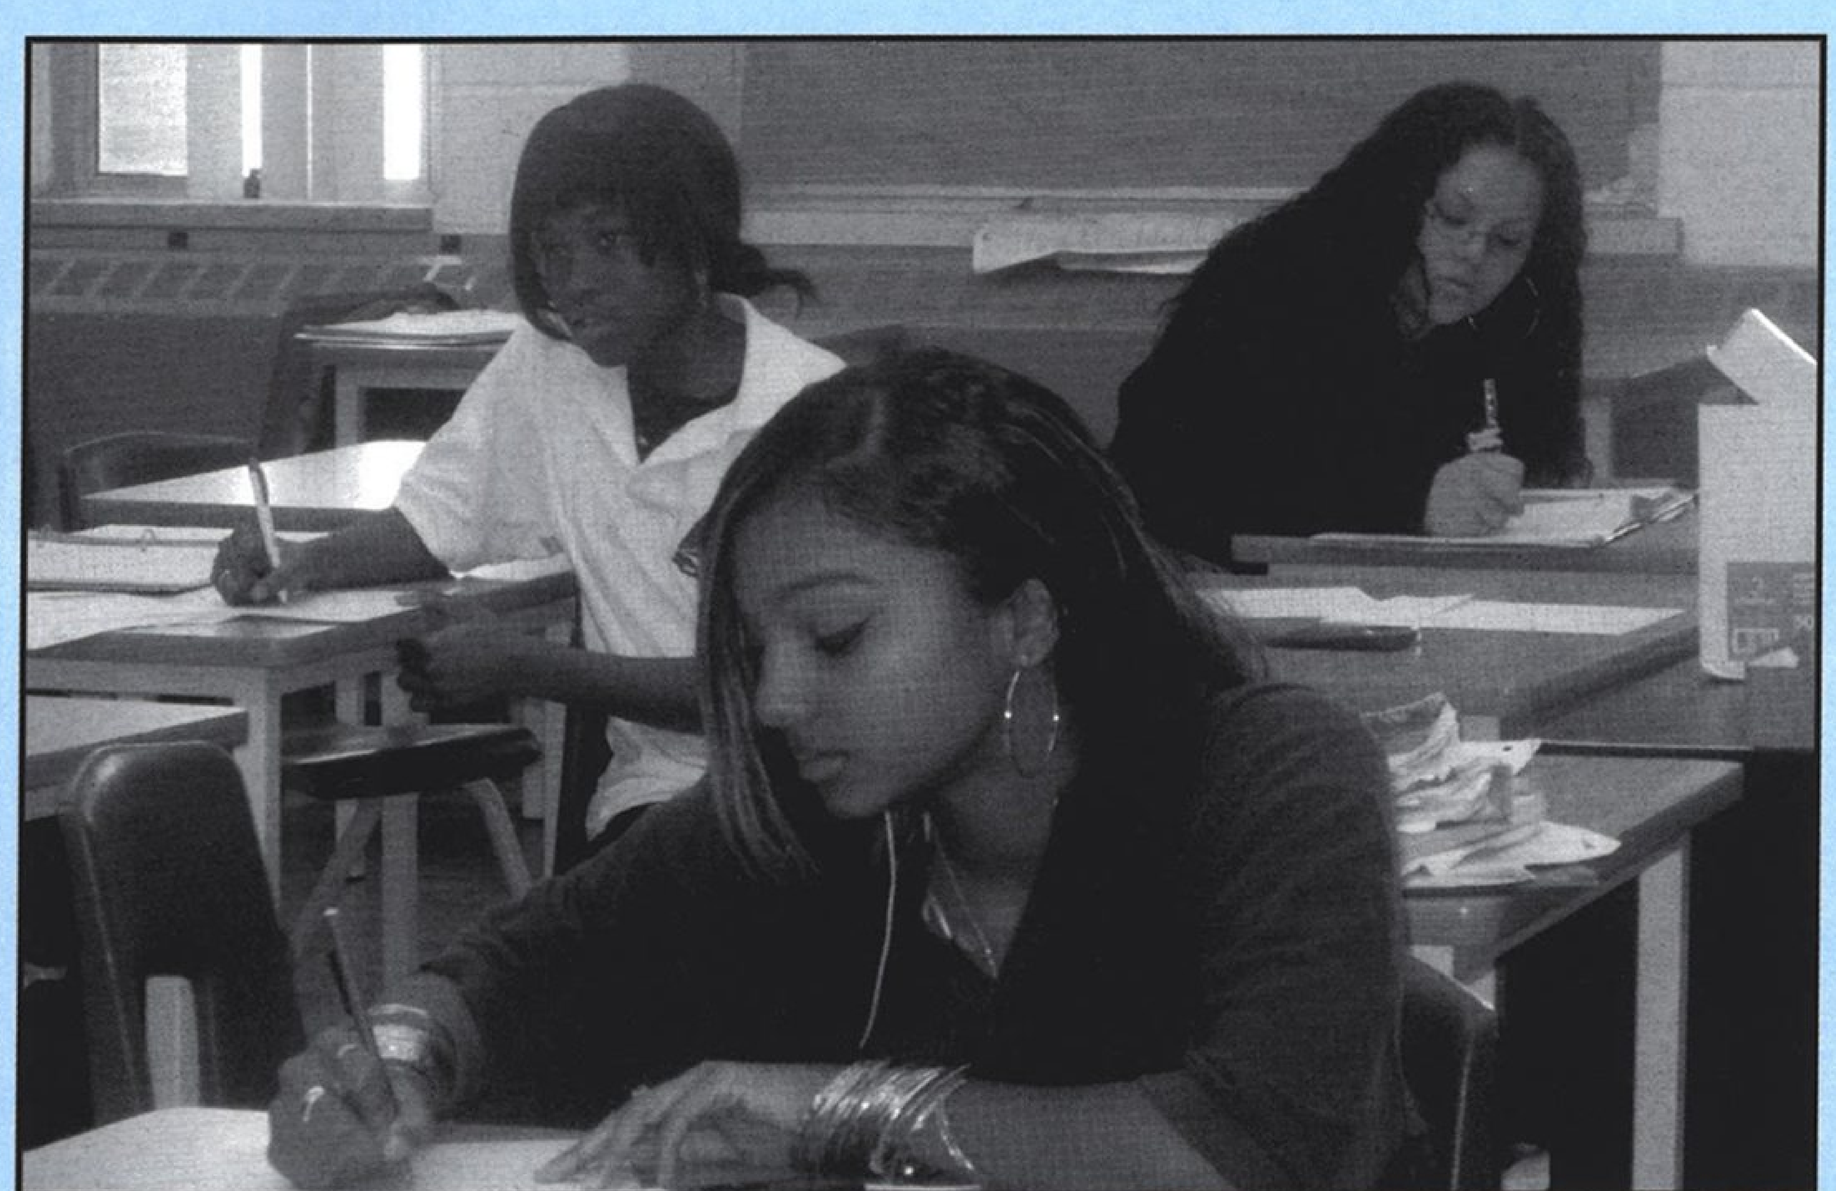

"Do your homework and study for tests!" - *Chris Zamora*

WESTVIEW CENTENNIAL LEADERSHIP CAMP 2006
KINARK OUTDOOR CENTER
MINDEN ONTARIO

"It was scary but you got to be determined to get to the top."

Design by Raevon Bourque

Learning Outside the Classroom

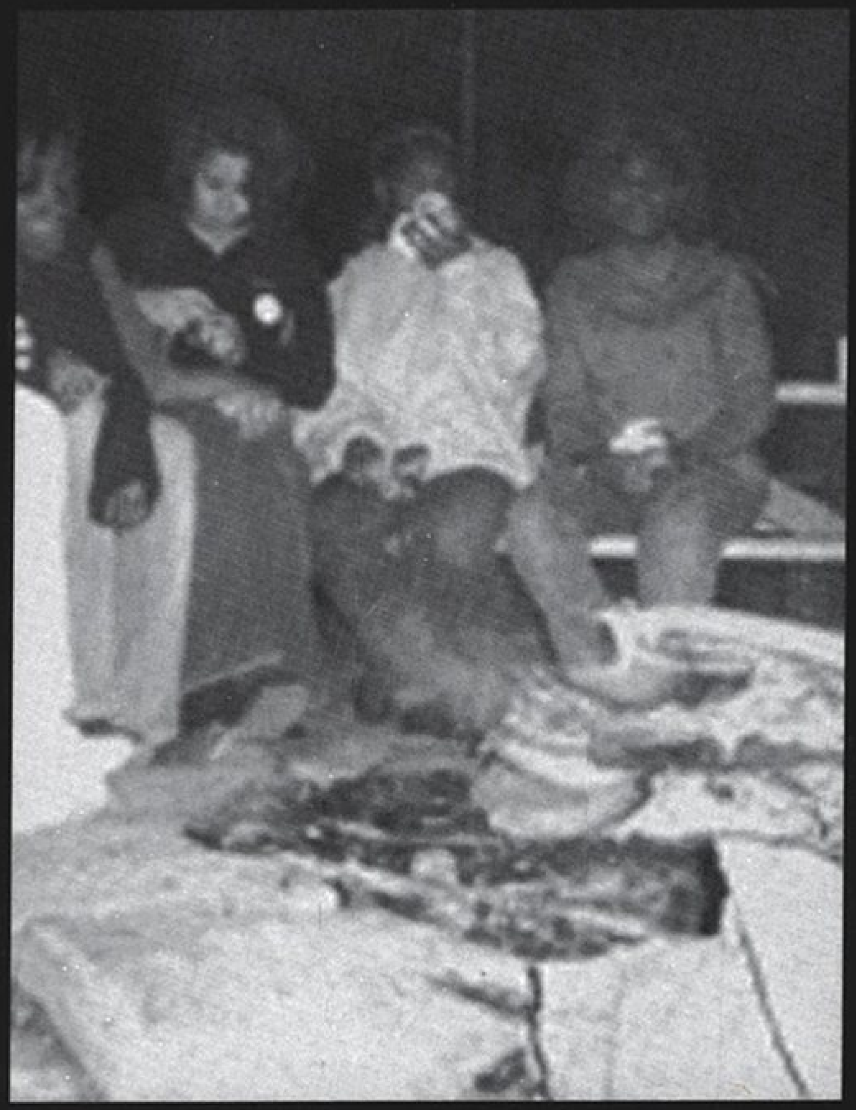

By: Raevon Bourque

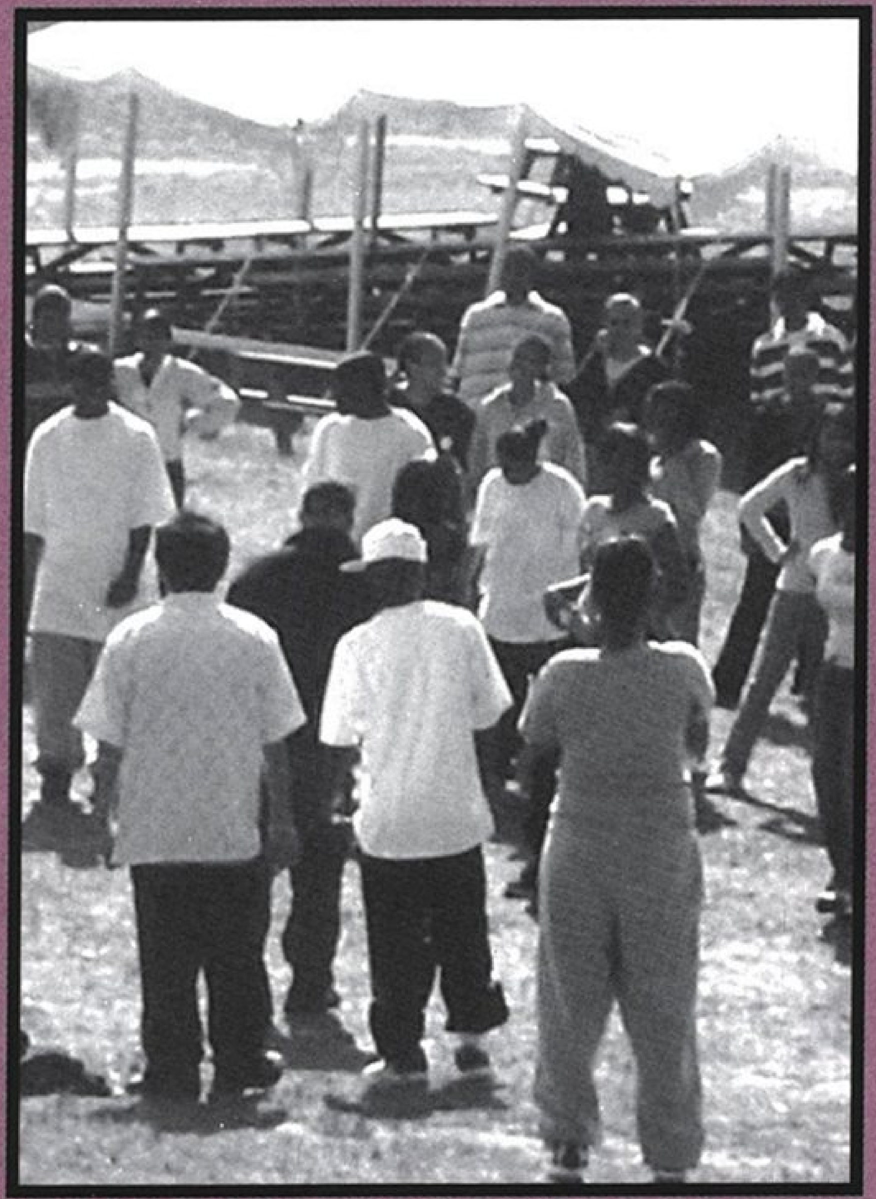

On October 2nd to October 4th of 2006, fifty Westview students shared the most stimulating and exciting learning experience of their lives. The students, selected from a variety of grade levels, are designated as future leaders. On October 2nd, fifty students, eight Westview staff and four police officers from 31 Division hopped on the coach bus which took them all the way to the Kinark Outdoor Center.

The Kinark Outdoor Center is a place of opportunity. Our Future Leaders were to upgrade and develop their leadership skills because they were seen as role models to younger children. Several people overcame challenges while doing the daily activities. Some of the daily activities included ice breakers, high ropes, low ropes, trust activities, camp fires, plays, and one of the favorites: night hiking.

The highlight of the camp was the high ropes. Many students were afraid of heights and thought that the high ropes were too challenging. "It was scary but you got to be determined to get to the top. I never made it to the top but I got to the ground with my thumbs up and high spirited" exclaimed Richmond Baah. But with a little encouragement from their peers, the high rope students went on and accomplished a small challenge.

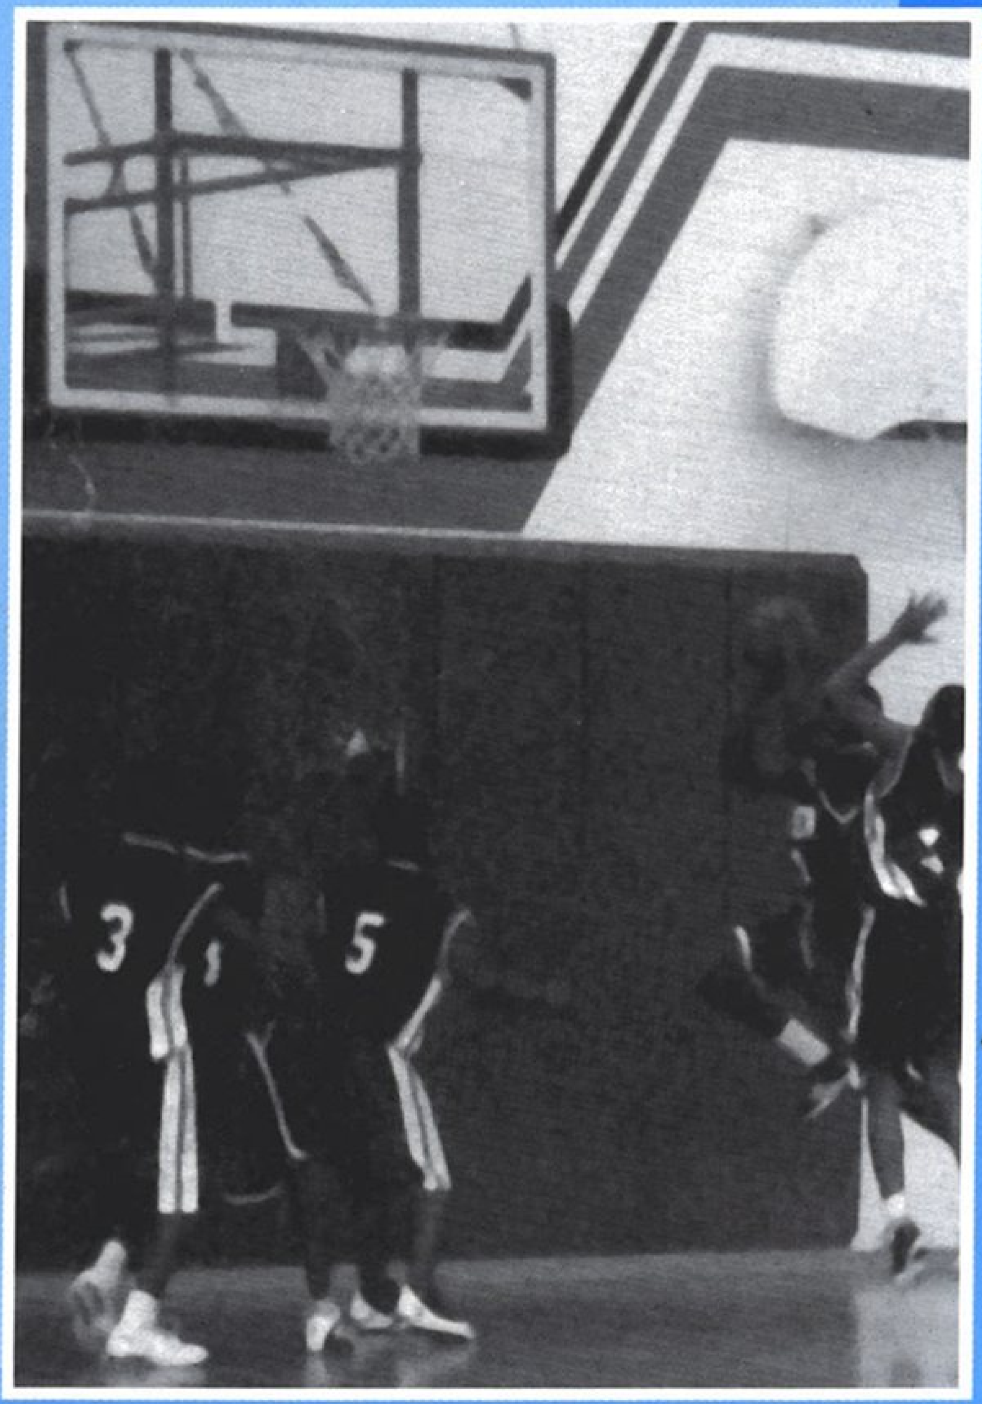

The last day ended in rain. We all woke up and ate our breakfast. After breakfast we were off to our daily activities. Everyone was split into about four groups. Each group did different activities. Afterwards we went off to the dining hall to have our last meal. We were told to go and pack our bags and put them where the coach bus would pick us up. All of the camp Kinark leaders ended the trip with a final goodbye and we were off. The trip did not end there: the students had to fill out three papers and sign them as a commitment. The three papers consist of personal growth, school initiatives and community involvement.

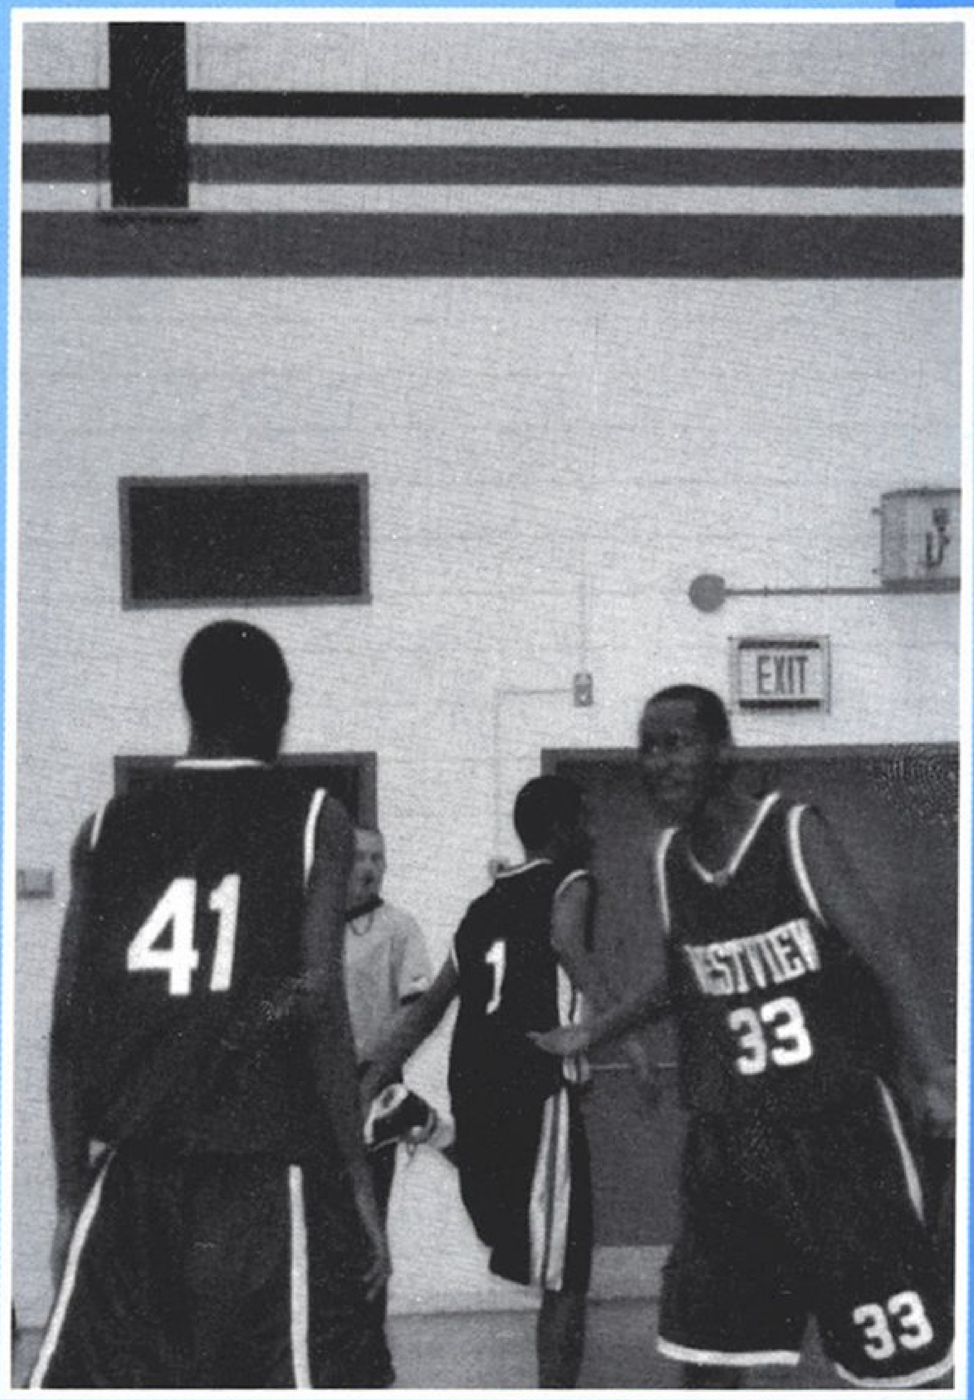

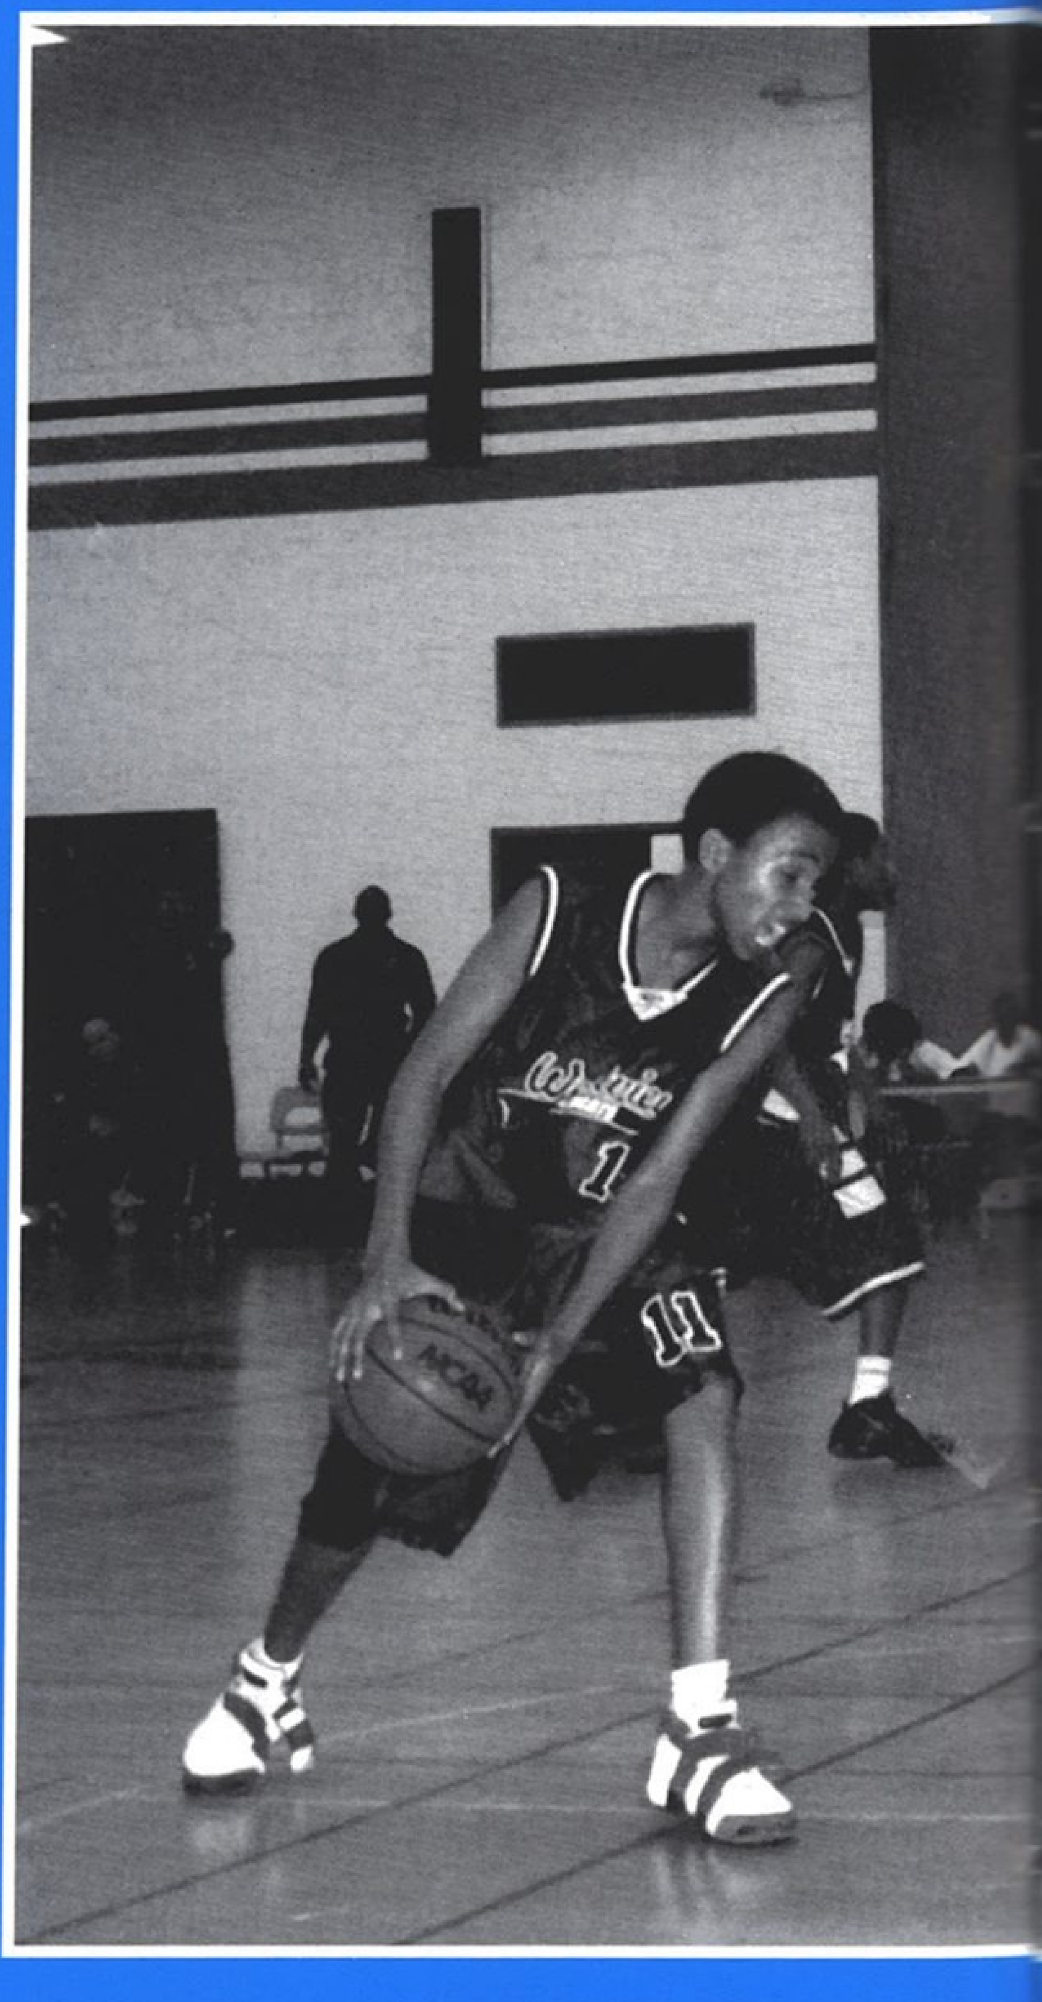

Boys Basketball

Westview's Boys' Basketball team consists of many multi-talented young males who put their focus in a season of basketball. The Senior Boys' season ended early but they played until the end diligently without their fallen captain Rashaan Robotham who was unable to play this season. The Junior Boys' ball team played their hearts out and showed what capable players they are. Placing a strong second, losing to Emery by a measly 3 points in the championships, they emerged strong and united coming out victorious this season. A job well done! (Good job ya'll! Your boy, Rashaan R.)

The Royal Winter Fair!

Photographs by Chris Johnson
Layout by Jonathan Gangadeen

Ever wonder where your dinner comes from?

For two years running, English/Drama teacher Mr. Parkes has made it a mission to teach us city-slickers a little about life in the country and where our food comes from.
And what better place to do that than the Royal Agricultural Winter Fair, held every year in the first two weeks of November since 1922.

She's A Mystery

She's the happiest person I know
Her life is made of gold
She never faces any trouble,
She doesn't know the meaning of struggle
Her actions show her grace
Never has any tears on her face
She never breaks down
She doesn't know the meaning of anger, she doesn't know the meaning of pain
She lives in her own world, and it gets better day-by-day
She doesn't identify with work
She never has to provide herself with support
She never resorts to using effort
She never feels the necessity to dream
She never prays for better
Never wishes for more
She's living the finest reality
Her family is ideal
Her friends are sincere
She never wears a disguise
Never feels the need to lie, never bothers to cry
She never sacrifices, never feels alone
She is the strongest person that I have ever known
Her life is so simple
Amazing as can be
It's phenomenal
Her life is so perfect
It isn't real
She's a mystery By Natasha Dookie

Robotics
(Canada First Team 886)

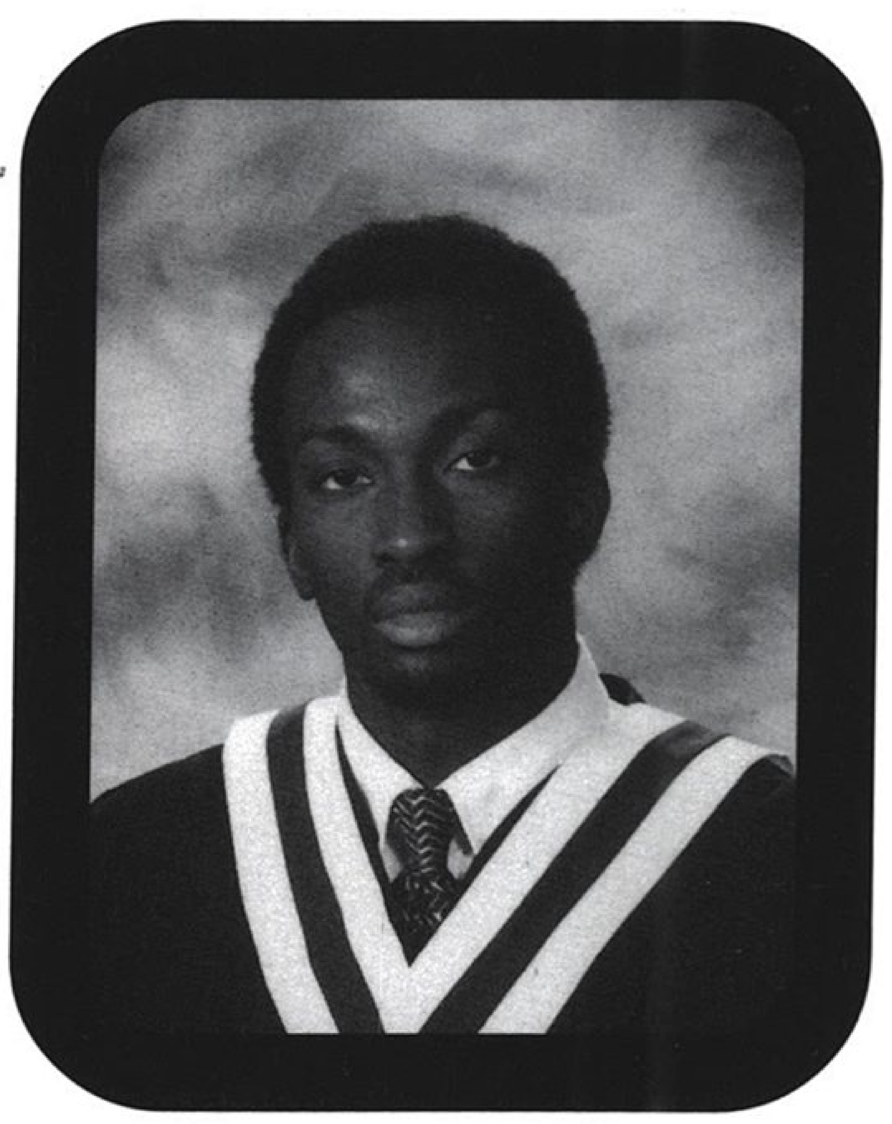

Another successful year for the Robotics Team! Since September, the team worked hard to build and program a robot from the ground up, with the goal of participating in the First Robotics Competition. An intense, multi-day tournament, it gives teams from all over the province a chance to battle for supremacy in the ring! Westview's team made us proud once again, climbing as high as fourth place during the competition..

Graduates of 2006-2007

Ahmadi, Sadaf

NN: Sadafi/ Daf
PFF: High school is done and hopefully getting into university. After, I want to find a good job and get settled with a good family and then I'll be happy.
WOW: All I could say: never give up, always try your best, because there is no harm in trying
O: Wow! 4 years are already up. I know that sounds clichéd but I still can't believe it's over! I want to thank everyone who has made Westview an unforgettable experience and the people who have been there through the ups and downs. Remember the whole point of being alive is to evolve into the complete person you were intended to be.

Abdully, Mursal

NN: Mursali/ Lasrum
FQ: "Don't let anyone's opinion be your reality"
PP: When guys say "Whatever and oh my god,"
PFF: Go to Michener and hopefully become an MIR, get married and become a mom.
WOW: Enjoy Mr. Demesie's tutorials because you will really miss it. Mursal rules. I own Facebook.
O: I would like to thank all my friends for making this journey beautiful and fun: Pooja, Mayank, Balram, Guillermo, Philip AKA Rice, and special thanks to Mrs. Chadha and lots more.

Agyemang, Abigail

NN: V.P, Abby
FQ: "You never know what you have until you lose it." "Life is a game, how you play is up to you."
PP: People who are two-faced.
PFF: Go to University to study criminology or Justice Systems for four years. Become a probation officer, or go straight to law school to become a lawyer. Try to enjoy life as much as I possibly can.
WOW: Don't let anyone tell you what you can and cannot do. Stand up for what you think is right even if you stand alone.
O: My most memorable moment is the trip to Kinark, Trip to Ottawa, Prom, and Black History month assembly.

Agyen, Ella

NN: Slim
FQ: "Cry a river, build a bridge, and get over it!"
PP: When people think they're all that, but they're not!
PFF: To move to the states and pursue my long-time dream of becoming a fashion model.
WOW: If at first you don't succeed, dust yourself off and try again. **O:** Goodbye Westview!

Ali Mohamud, Yusuf

NN: Useful, Useless
FQ: "Continuous effort, not strength our intelligence is the key to unlocking our potential."
PP: Liars, spicy food, and a runny nose.

From there get into Hollywood and represent by being the second Indian girl in Hollywood...whoohoo. But if all fails I'll go to university, get into law school and obtain my law degree.
WOW: Make most of your highschool life and I don't mean to go out and party, drink and mess around.Wait until university for all that. I promise you it will be worth it in the end. Just get involved in school and keep up your grades.
O: Even though the school year was so lifeless and boring I did meet a lot of wonderful and amazing people. I love you guys. There's only one thing left to say, Good Bye Westview Forever! Now let's just pray I graduate.

A Message From Your Student Council

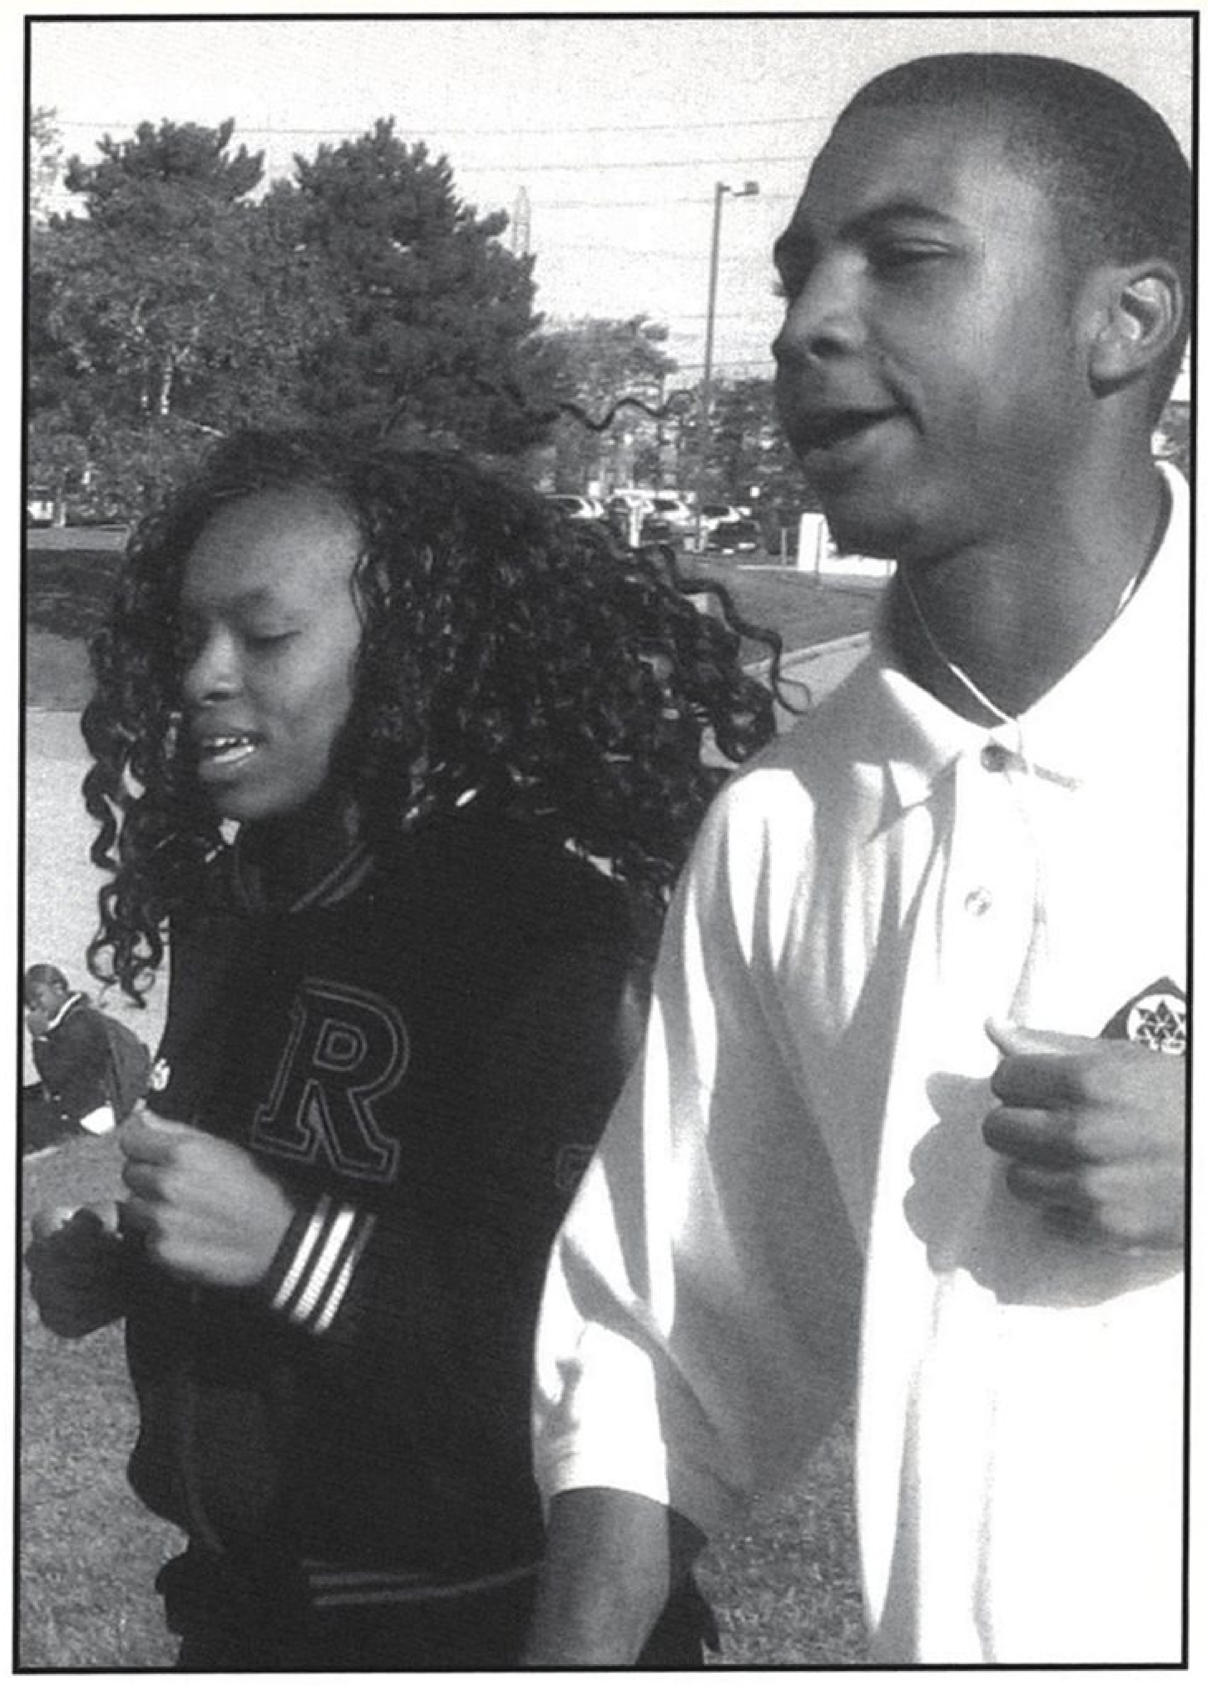

Our experience this year as the student council was a memorable one that we will never forget. We were eager to make a difference in the school. We re-invented the dance, brought back dress-down days, had a successful spirit week and set up school programs for the the school and students to benefit from.

We would like to thank the administration for working with us and allowing us to do some of the things that we have done. A special thanks goes to Ms. Chaudry and Mr. Mandl for guiding us through the year and helping us accomplish our goals. Last but not least, thank you to all the students who supported us in helping make the year a success!

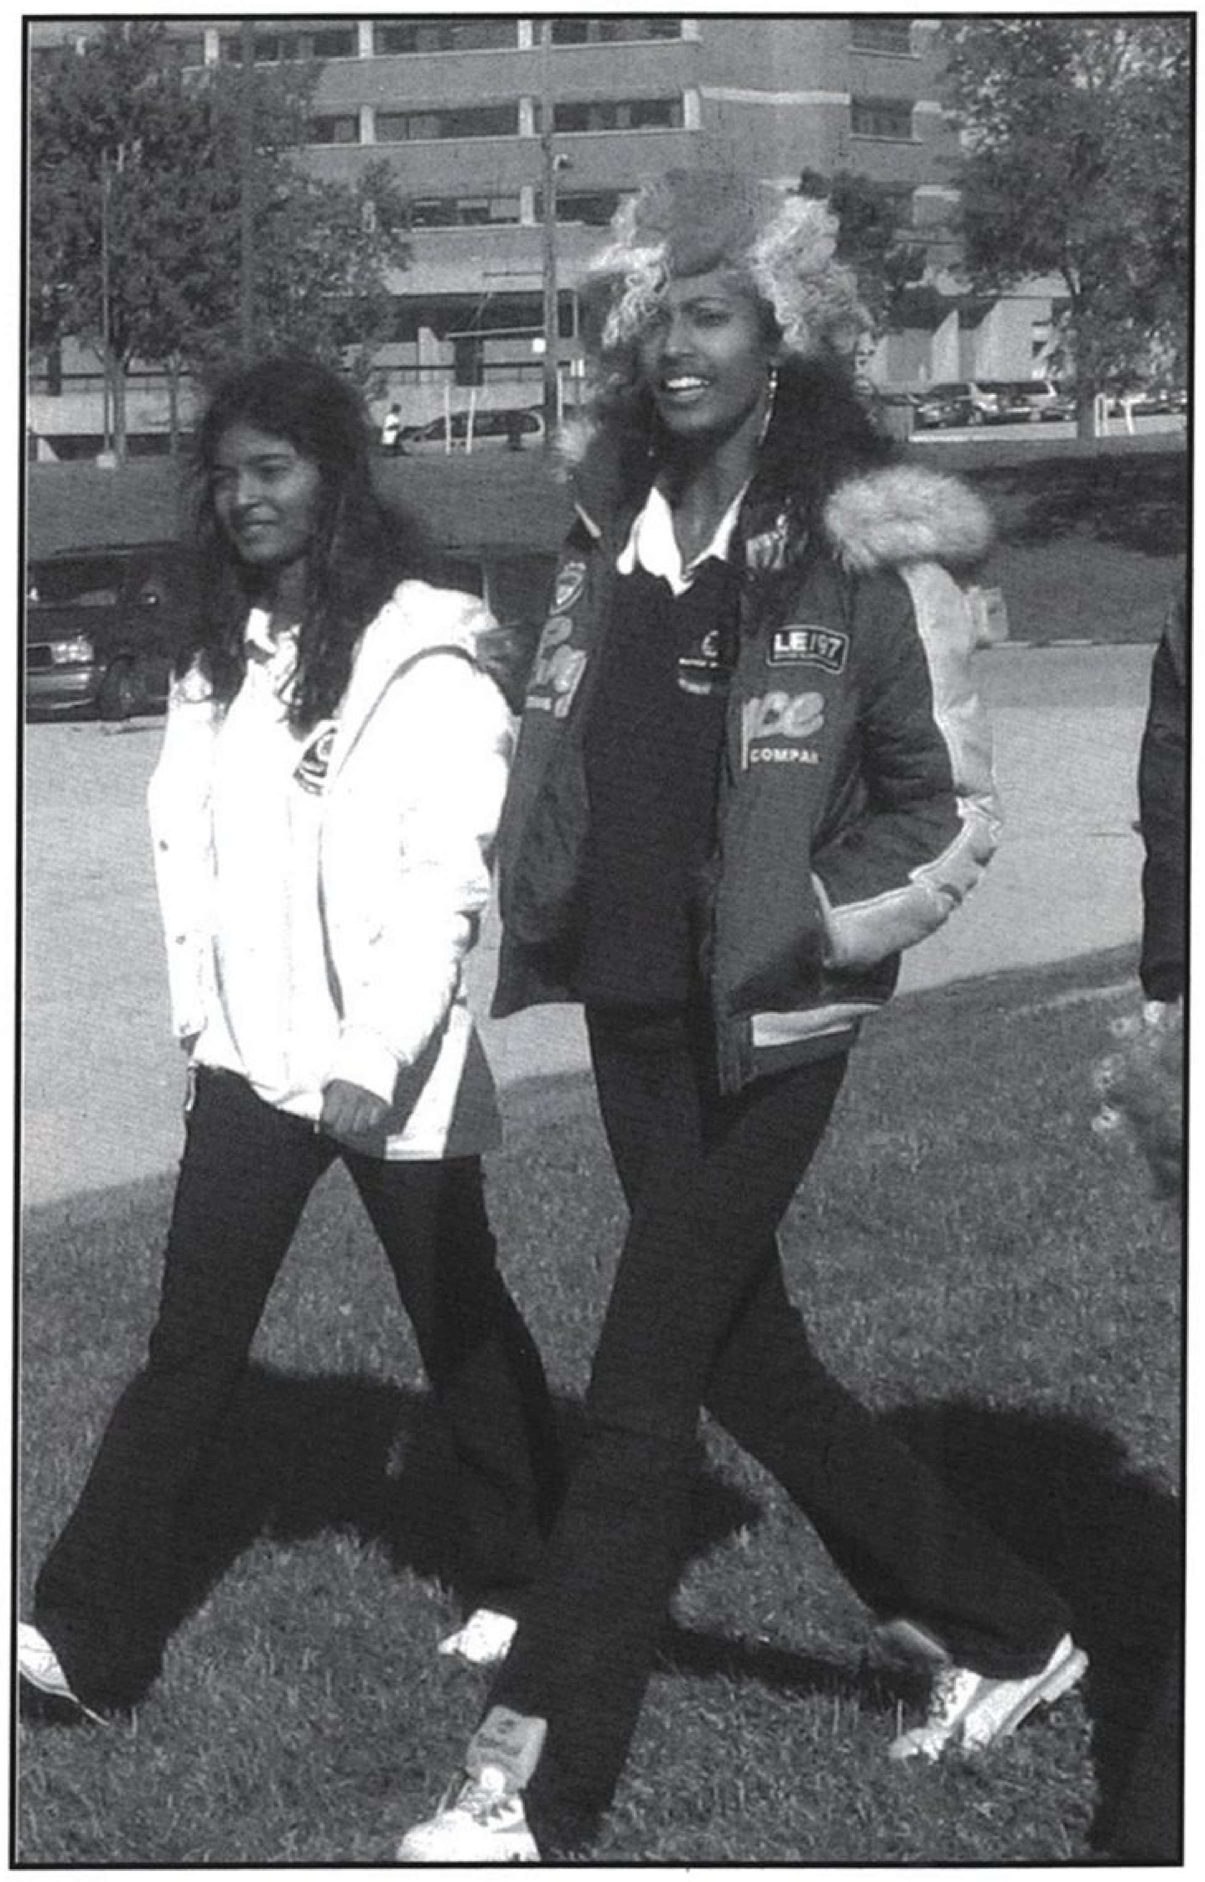

Sincerely,

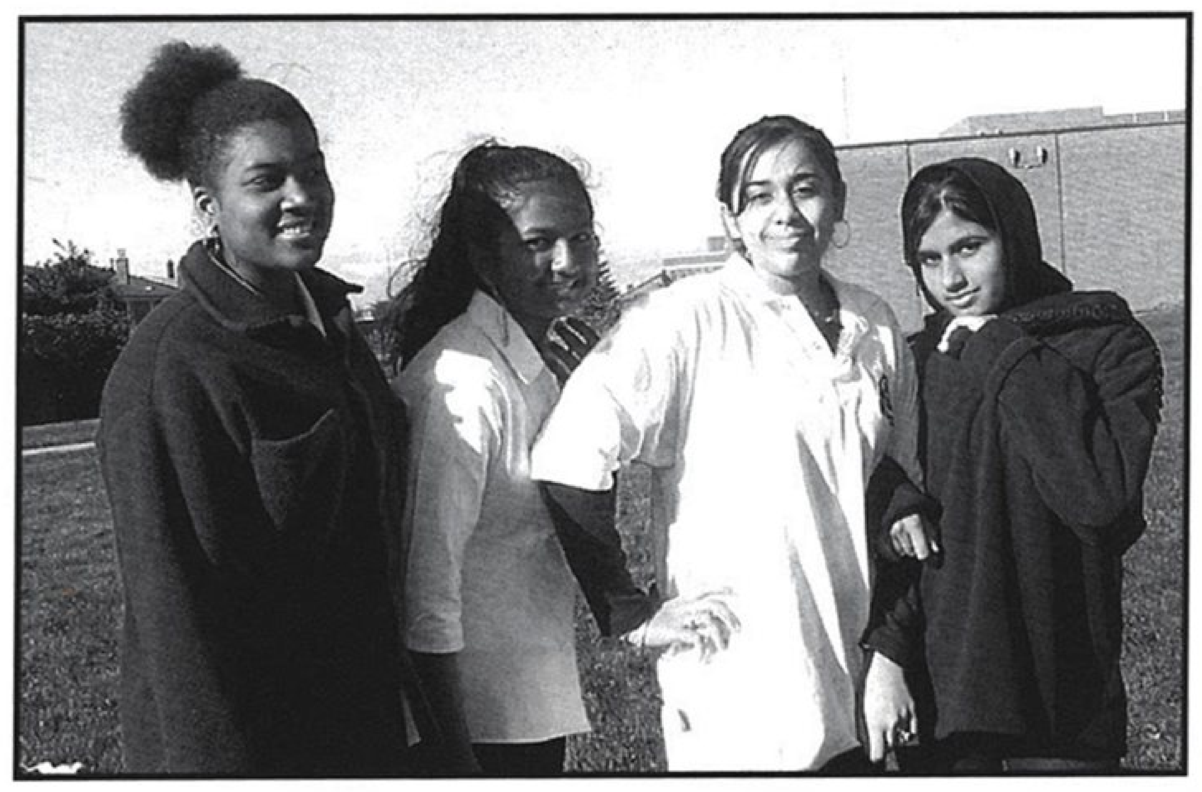

Westview Student Council 2006-2007

Ottawa!

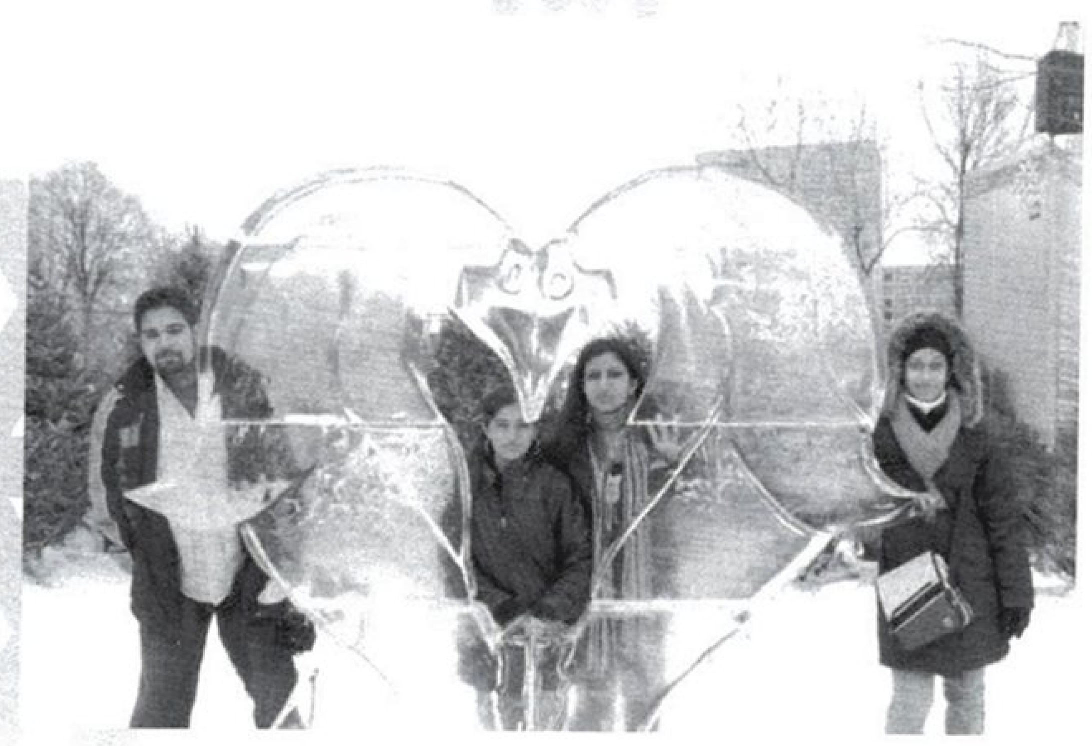

In March, Westview students visited the national capital and found it still in the grip of winter. But as you can see that didn't stop them from having all sorts of adventures, both indoors and out!
